Edition SE 6 features The first chapter sets the stage by introducing Java SE 6 in terms of its name change themes an overview and a sampling of new features It also briefly discusses the first two Java SE 6 updates The remaining nine chapters organize features into the following categories core libraries GUI toolkits AWT GUI toolkits Swing internationalization Java Database Connectivity monitoring and management networking scripting and security and web services While exploring these chapters you will encounter a variety of useful and interesting topics introducing a new locale with its own currency creating a new JConsole plug in creating a scripted JEditorPane component invoking and communicating with JavaFX Script and JRuby scripts from a Java application that interacts with the Scripting API signing an arbitrary XML document and validating a signed document s XML signature and accessing an existing web service are examples With a few exceptions each of chapters 2 through 10 alphabetically organizes its topics for convenient access Furthermore all 10 chapters end with a Test Your Understanding section that provides questions and exercises to help you reinforce your understanding of what you have read Additional features are covered in the first three appendices The first appendix introduces you to annotation types for annotation processors Common Annotations 1 0 and several tables that conveniently organize additional annotation types that are new to Java SE 6 The second appendix explores changes made to various Java tools For example the Java compiler tool now supports annotation processing you ll learn how to take advantage of this capability by writing your own annotation processor Another example you ll learn how to interact with the command line script shell The third appendix looks at a variety of performance enhancements ranging from a fix for the gray rect problem to single threaded rendering The second to last appendix provides answers and code to all of the questions and exercises in the various Test Your Understanding sections The final appendix anticipates Java SE 7 by looking at features most likely to make the cut including closures the Java Module System and the Swing Application Framework By the time you finish this book you will have mastered most of what s new and improved in Java SE 6 Although a few features such as multiple gradient paints and an in depth look at StAX are not covered you will find a growing list of articles devoted to these additional topics on the author s website JavaJeff mb ca Follow the links at the bottom of the website s Articles page   Research and Practical Issues of Enterprise Information Systems A. Min Tjoa,Li Xu,Sohail Chaudhry,2007-11-14 The idea for this conference came from a meeting of the IFIP International Federation for Information Processing Technical Committee for Information Systems TC8 in Guimares Portugal in June 2005 Our goal is to build an IFIP forum among the different Information Systems Communities of TC8 dealing with the increasing important area of Enterprise Information Systems In this particular meeting the committee members intensively discussed the innovative and unique characteristics of Enterprise Information Systems as scientific sub discipline Hence in this meeting it was decided by the TC8 members that the IFIP TC8 First International Conference on Research and Practical Issues of Enterprise Information Systems CONFENIS 2006 would be held in April 2006 in Vienna Austria Dr Li Xu USA and Dr A Min Tjoa IFIP TC8 were assigned to propose a concept for this conference in order to

establish an IFIP platform for EIS researchers and practitioners in the field to share experience and discussing opportunities and challenges We are very pleased therefore to have this conference organised by the help of the Austrian Computer Society OCG OCG supports the idea of this conference due to the urgent need of research and dissemination of new techniques in this key area We received 180 papers from more than 30 countries for CONFENIS and the Program Committee eventually selected xx papers or extended abstracts making an acceptance rate of xx% of submitted papers Each paper was thoroughly reviewed by at least two qualified reviewers **JDBC Recipes** Mahmoud Parsian,2006-11-08 JDBC Recipes provides easy to implement usable solutions to problems in relational databases that use JDBC You will be able to integrate these solutions into your web based applications such as Java servlets JavaServer Pages and Java server side frameworks This handy book allows you to cut and paste the solutions without any code changes This book focuses on topics that have been ignored in most other JDBC books such as database and result set metadata It will help you develop database solutions like adapters connectors and frameworks using Java JDBC The insightful solutions will enable you to handle all data types including large binary objects A unique feature of the book is that it presents JDBC solutions result sets in XML
