Operating Manual Sab 128:

Advances in Computer Systems Architecture Pen-Chung Yew, Jingling Xue, 2004-08-19 On behalf of the program committee we were pleased to present this year's program for ACSAC Asia Pacific Computer Systems Architecture Conference. Now in its ninth year, ACSAC continues to provide an excellent forum for researchers, educators, and practitioners to come to the Asia Pacific region to exchange ideas on the latest developments in computer systems architecture. This year the paper submission and review processes were semiautomated using the free version of CyberChair. We received 152 submissions, the largest number ever. Each paper was assigned at least three, mostly four, and in a few cases even five committee members for review. All of the papers were reviewed in a two-month period during which the program chairs regularly monitored the progress of the review process. When reviewers claimed inadequate expertise, additional reviewers were solicited. In the end, we received a total of 594 reviews, 3.9 per paper from committee members as well as 248 coreviewers whose names are acknowledged in the proceedings. We would like to thank all of them for their time and effort in providing us with such timely and high quality reviews, some of them on extremely short notice.

Al-Rashidi, 2021-03-22 This book examines the phenomenon of grand corruption in Kuwait and the pattern in the wider region Taking an interdisciplinary approach the work places

corruption in its sociological political and economic context to explore the relationship between the characteristics of Kuwait as a state with an endemic corruption problem. It then focuses on laws and regulations as key problem solving mechanisms. In doing so it identifies, explores and assesses the existing counter corruption laws and regulations in Kuwait in a broad socio political economic context. The work goes beyond doctrinal legal research employing empirical methodology based on semi structured interviews with elite politicians and professional experts from criminal justice and non governmental organisations NGOs. These valuable and original insights are reflected upon throughout the study. The grand corruption that permeates the tier of high profile officials in Kuwait is replicated in many developing countries where accountability mechanisms regularly suffer from lack of enforcement. The appeal of this book is its application to numerous jurisdictions and the Gulf Cooperation Council GCC countries and Middle East in particular. It will be a valuable resource for academics researchers and policymakers working in the areas of financial crime and corruption.
