Beyond Disagreement Aruna Sathanapally, 2012-10-25 Examining the role of open remedies in human rights adjudication this book provides a new perspective informing comparative constitutional debates on how to structure institutional relationships over fundamental rights and freedoms Open remedies declare a human rights violation but invite the other branches of government to decide what corrective action should be taken Open remedies are premised on the need to engage institutions beyond courts in the process of thinking about and acting on human rights problems This book considers examples across the United States South Africa Canada and internationally emphasising their similarities and differences in design and the diverse ways they could operate in practice the book investigates these possibilities through the first systematic legal and empirical study of the declaration of incompatibility model under the United Kingdom Human Rights Act This new model provides a non binding declaration that the law has infringed human rights standards for the legislature's consideration By design it has the potential to support democratic deliberation on what human rights require of the laws and policies of the State however it also carries uncertainties and risks Providing a lucid account of existing debates on the relative roles of courts and legislatures to determine the requirements of fundamental rights commitments the book argues that we need to look beyond the theoretical focus on rights disagreements to how these remedies have operated in practice across the courts and the political branches of government Importantly we should pay attention to the nature and scope of legislative engagement in deliberation on the human rights matters raised by declarations of incompatibility Adopting this approach this book presents a carefully argued view of how courts have exercised this power as well as how the UK executive and Parliament have responded to its use In Defense of the Text Leslie Friedman Goldstein, 1991 a must read for all students of constitutional law whatever their academic discipline this excellent book accomplishes the author's purpose it forces us to take textualism seriously LEGAL STUDIES FORUM **Readers' Guide to Periodical Literature**, 1920 The Saturday Review of Politics, Literature, Science and Art, 1859 **Encyclopedia of American Political Parties and Elections** Larry Sabato, Howard R.
