The Brand Strategist's Guide to Desire A. Simpson, 2014-03-16 This is a guide to help brand strategists consider what people really want in order to enhance their lives and think about the role of their brand in responding to these desires. It offers a new framework for understanding desire based on some of the things that are really important to us: our family, friends, and community; the desire to explore, learn, and grow; how we experience the world through our senses; our appetite to live life to the full; and what we set out to achieve. Brand strategists are the link between a commercial proposition and the lives it means to touch. They can talk to the people the company wants to reach and more importantly, listen to them. A brand which both enhances people's lives and nurtures the resources on which they depend will prove more resilient, win trust, and achieve better results.
