

MOUNTING THE LENS

Position the lens in the bayonet mount on the lens panel, lining up the black dot on the lens with the white dot on the lens panel. Then twist the lens counterclockwise until it clicks into place.

To remove, press the lens release button on the lens panel and twist clockwise.

To mount the lens in reverse position, use the Nikon Macro Adapter Ring BR-2. The ring has a bayonet mount at one end that fits onto the PB-4, and a screw thread mount at the other to accept the lens. It can be used with any lens with 52mm attachment size.
