Photography: Choosing Your Film SLR Shawn M. Tomlinson, 2018-02-22 Film cameras the bodies themselves have little to do with image quality Lenses are far more important to image quality than camera bodies So as long as your camera has accurate shutter speeds aperture settings and metering the brand you pick doesn't really have much of an effect upon the final image So then it appears the model camera you choose is irrelevant Well no The type of film SLR camera you choose is most important to you as the photographer in features and convenience Comfort has a lot to do with how good you are as a photographer What I mean by that is that you choose a camera that feels comfortable in your hands and becomes an extension of your brain as a photographer This makes it easier to capture the types of images you want *The Bird Photography Field Guide* David Tipling, 2011-03-28 A specialist title aimed at bird watchers this handy book contains all the expertise you need to make your bird watching trip into a rewarding photo session there is copious advice on equipment technique and field craft and a wealth of wonderful photos to inspire you Finally a section on the digital darkroom will help you turn your shots into perfect prints *British Journal of Photography*, 2009
