the Abyss Peter Bornedal,2010 Peter Bornedal provides an interpretation of Nietzsche s philosophy as a whole in the context
 of 19th century philosophy of mind and cognition The study explains Nietzsche s notion of truth his epistemology his notions
 of the split and fragmented subject of master slave and priest furthermore it offers a new interpretation of the enigmatic
 eternal recurrence It also suggests how important aspects of Nietzsche s thinking can be read as a sophisticated critique of
 ideology From studies in Nietzsche s work as a whole not least in his so called Nachgelassene Fragmente the book
 reconstructs aspects of Nietzsche s thinking that have largely been under described in especially the Anglo Saxon Nietzsche
 reception The study makes the case that Nietzsche in his epistemology his psychology and his cognitive theory is responding
 to several scientific discoveries occuring during the 19th century Read within the context of contemporary cognitive
 psychological evolutionary debates Nietzsche s philosophy is seen as far more scientific and far less poetical metaphysical
 than it has in recent reception history been received Uncommon Dan Desmarques, A human being isn t a static organism
 but dynamic What we eat feel experience and even our relation with and interpretation of our experiences everything
 influences our DNA This said we can t predict changes in our future without precisely analyzing how we react to the

situations presented before us And these reactions start far before we re born with our mother She s the one that influences what we eat and feel before our birth And so by the time of birth the baby has already suffered significant DNA changes that will affect his whole life What we can do from that point on with our genetic code consists in consciously altering it with our own habits and knowledge about the best way to deal with our decisions in life And this is what this book proposes a new slant on psychology where what is known is presented here and explained in what regards using our potential for change and development
