The Light and the Life Joe McNally, 2014-10-21 I've gotten a lot of requests the past few years to make a keepsake a compilation if you will of the favorites from the blog It's easy to miss a blog post anyone's post because the rush of day to day life intercedes This book gives me a chance to put some favorite posts together in one place and to collect a lot of thoughts feelings and lessons into something coherent It's humorous educational and most of all real Editing for this book was like editing pictures You pick the ones that resonate have the potential for memory and possess some sort of emotional or stylistic connection The following 25 stories are a cross section of the most popular educational and madcap posts from the blog The ones that have struck a chord with readers The book has two sections The Light and The Life The Light section deals with the nuts and bolts of using flash and crafting light There's a bunch of techniques strategies truisms and gear talk The Life section is about a photographic life about being a shooter which is sometimes painful sometimes humorous but hopefully at the end of the day anecdotally educational Writing the blog has been different from writing a book because it's less formal and a little more raw I have occasionally written about times gone by and events I've had a chance to reflect on On other occasions a blog has spontaneously sprung from the events in the field that day from the frustration of getting on an airplane with a lot of photo gear to dealing with a difficult subject or client It's the unedited rushes of the photographic experience It veers from considered commentary to technical lessons to quick funny riffs about the exasperating goofy stuff of any given day in the field It's quick off the mark and an honest account of just how wonderful amazing crazy sad frustrating rewarding disheartening and ultimately glorious it is to be a visual storyteller Joe Popular Photography, 2006-08
