Not For Sale:

The Land Shall Not Be Sold in Perpetuity Yossi Katz, 2016-04-11 The State of Israel is the only Western state where the majority of lands are still owned by the State and by a public body related to it The Jewish National Fund At the root lies the divine command stating that the Land of Israel belongs to God and therefore should not be traded in perpetuity Leviticus 25 This principle has been applied to almost all of the State lands and was established in a Basic Law Since the 1980s there were many pressures in Israel to privatize at least part of the State's and JNF's lands due to the general privatization process of Israel's economy the deepening globalization process and the transformation of Israel to an individualistic society However only a small portion of the lands were privatized constituting 4% of the area of Israel The book is based wholly on primary sources It describes and analyzes the history of the ideological social and legal processes that took place and their development since the beginning of the 20th century until today processes that brought about the unique phenomenon of the State of Israel as an advanced capitalistic state whose lands are mostly state owned

Why Some Things Should Not Be for Sale Debra Satz, 2010-06-10 What's wrong with markets in everything Markets today are widely recognized as the most efficient way in general to organize production and distribution in a complex economy And with the collapse of communism and rise of globalization it's no surprise that markets and the political theories supporting them have seen a considerable resurgence For many markets are an all purpose remedy for the deadening effects of bureaucracy and state control But what about those markets we might label noxious markets in addictive drugs say or in sex weapons child labor or human organs Such markets arouse widespread discomfort and often revulsion In *Why Some Things Should Not Be for Sale* philosopher Debra Satz takes a penetrating look at those commodity exchanges that strike most of us as problematic What considerations she asks ought to guide the debates about such markets What is it about a market involving prostitution or the sale of kidneys that makes it morally objectionable How is a market in weapons or pollution different than a market in soybeans or automobiles Are laws and social policies banning the more noxious markets necessarily the best responses to them Satz contends that categories previously used by philosophers and economists are of limited utility in addressing such

questions because they have assumed markets to be homogenous Accordingly she offers a broader and more nuanced view of markets one that goes beyond the usual discussions of efficiency and distributional equality to show how markets shape our culture foster or thwart human development and create and support structures of power An accessibly written work that will engage not only philosophers but also political scientists economists legal scholars and public policy experts this book is a significant contribution to ongoing discussions about the place of markets in a democratic society Shipped but Not Sold Nancy Um,2017-05-31 In the early decades of the eighteenth century Yemen hosted a bustling community of merchants who sailed to the southern Arabian Peninsula from the east and the west seeking and offering a range of commodities both luxury and mundane In *Shipped but Not Sold* Nancy Um opens the chests these merchants transported to and from Yemen and examines the cargo holds of their boats to reveal the goods held within They included eastern spices and aromatics porcelain cups and saucers with decorations in gold from Asia bales of coffee grown in the mountains of Yemen Arabian horses and a wide variety of cotton silk velvet and woolen cloth from India China Persia and Europe in addition to ordinary provisions such as food beer medicine furniture pens paper and wax candles As featured in the copious records of the Dutch and English East India Companies as well as in travel accounts and local records in Arabic these varied goods were not just commodities intended for sale in the marketplace Horses and textile banners were mobilized and displayed in the highly visible ceremonies staged at the Red Sea port of Mocha when new arrivals appeared from overseas at the beginning of each trade season Coffee and aromatics were served and offered in imported porcelain and silver wares during negotiations that took place in the houses of merchants and officials Major traders bestowed sacks of spices and lavish imported textiles as gifts to provincial governors and Yemen's imam in order to sustain their considerable trading privileges European merchants who longed for the distant comforts of home carried tables and chairs along with abundant supplies of wine and spirits for their own use and in some cases further distribution in Yemen's ports and emporia These diverse items were offered displayed exchanged consumed or utilized by major international merchants and local trade officials in a number of socially exclusive practices that affirmed their identity status and commercial obligations but also sustained the livelihood of their business ventures *Shipped but Not Sold* posits a key role for these socially significant material objects many of which were dispatched across oceans but not intended only for sale on the open market as important signs tools and attributes in the vibrant world of a rapidly transforming Indian Ocean trading society *Government Deals are Funded, Not Sold* Gene Moran,2023-11-28 As identified by Bloomberg Government the best performing federal contractors all lobby Congress We might guess that intuitively The common perception of Washington DC as an insider's game persists and it makes sense that the winners lobby However focusing only on best performing contractors limits the view of what unfolds through congressional lobbying or more importantly could unfold for even more companies if they only recognized that they also have access to Congress The tools of congressional influence are available to every company yet the overwhelming majority of federal contractors eschew

the opportunity to lobby Congress Sadly it s not just that companies often don t know how It s worse they don t know why lobbying Congress can be helpful Defense represents the most significant portion of the federal budget annually reviewed and approved by Congress As such it s a valuable case study to understand what may contribute to a concentration of winners that garner federal contracts Any company can learn by understanding more about lobbying in the defense industry The inability or unwillingness to integrate lobbying into a sales strategy stems from hubris ignorance and lack of imagination Thinking I ve got this and relying on their wits and narrow networks too many defense executives struggle to gain real traction and consistently win large contracts The result The biggest winners aggregate at the top of the defense industrial base pyramid while the hundreds of thousands of others are left to wonder what just happened and why it s so hard This book focuses on those who do not lobby It s almost too easy to conclude the system is unfair unlikely to change and populated by well connected insiders who move through the revolving door Digging a little deeper this book reveals that the real challenge to more democratized access to Congress is within our reach if we could only see it Code of Federal Regulations United States.
