Human Life in Motion Francisco J. Gonzalez, 2024-03-05 Human Life in Motion presents for the first time the previously unpublished transcripts of the seminars on Aristotle Martin Heidegger gave in the 1920s These transcripts reveal much about the evolution of his thought during that time Detailed student transcripts for these seminars appear among the papers of one of Heidegger's students Helene Weiss held today in the Special Collections Department of Stanford University Analyzing and organizing hundreds of pages of these transcripts written by different students Francisco Gonzalez brilliantly reconstructs the original seminars He summarizes what Heidegger presented and claimed in each class Gonzalez also throws into relief the overarching philosophical significance of the seminars showing how the different interpretative moves or claims are connected and where they lead something which in turn requires explicating them in the context of both the Aristotelian texts discussed and Heidegger's own thought during this period Essential reading for students and scholars of Heidegger or Aristotle Human Life in Motion is a publishing event that forces a reconsideration of the thought and legacy of both philosophers

Drift-Driven Design of Buildings Santiago Pujol, Ayhan Irfanoglu, Aishwarya Puranam, 2022-05-12 This book summarizes the most essential concepts that every engineer designing a new building or evaluating an existing structure should consider in order to control the damage caused by drift deformation induced by earthquakes It presents the work on earthquake engineering done by Dr Mete Sozen and dozens of his collaborators and students over decades of experimentation analysis and reconnaissance Many of the concepts produced through this work are integral part of earthquake engineering today Nevertheless the connection between the concepts in use today and the original sources is not always explained Drift Driven Design of Buildings summarizes Sozen's research provides common language and notation from subject to subject provides examples and supporting data and adds historical context as well as class notes that were the result of Sozen's dedication to teaching It distills reinforced concrete building design to resist earthquake demands to its essence in a way that no other available book does The recommendations provided are not only essential but also of the utmost simplicity which is not the result of uninformed neglect of relevant

parameters but rather the result of careful consideration and selection of parameters to retain only those that are most critical Features Provides the reader with a clear understanding of the essential features that control the seismic response of RC buildings Describes a simple perhaps the simplest seismic design method available Includes the underlying hard data to support and explain the methods described Presents decades of work by one of the most prolific and brilliant civil engineers in the United States in the second half of the 20th century Drift Driven Design of Buildings serves as a useful guide for civil and structural engineering students for self study or in class learning as well as instructors and practicing engineers

Movies on a Mission Glenn Reynolds,2023-09-28 This investigation into the little known genre of mission oriented films uncovers how Protestant missionaries overseas sought to bring back motion picture footage from remote parts of the world In the broader religious community mission films aimed to educate congregants back home about efforts to evangelize communities around the world This book however demonstrates the larger impact of mission films on American visual culture The evolution and development of the genre is highlighted from an early emphasis on foreign views in the 1910s to interwar films providing a more detailed look at how mission stations functioned in far flung lands to Cold War productions which at times functioned as veritable propaganda tools parroting anti communist discourse emanating from the CIA **United States Code** United States,2018 *Oswaal ICSE Question Banks Class 9 | Physics | Chemistry | Maths | Biology |Set of 4 Books | For 2025 Exam* Oswaal Editorial Board,2024-03-30 Description of the Product 100% Updated with Latest Syllabus Questions Typologies We have got you covered with the latest and 100% updated curriculum Crisp Revision with Topic wise Revision Notes Smart Mind Maps Study smart not hard Extensive Practice with 500 Questions Self Assessment Papers To give you 1000 chances to become a champ Concept Clarity with 500 Concepts Concept Videos For you to learn the cool way with videos and mind blowing concepts 100% Exam Readiness with Expert Answering Tips Suggestions for Students For you to be on the cutting edge of the coolest educational trends
