**Income Tax Legislation, 2012, Vol 2**, **Special Tax Zones and EU Law** Claudio Cipollini, 2019-12-18 Economic recovery from the global financial crisis of 2007-2008 has been sketchy with some areas within the European Union EU still trapped in seemingly irremediable industrial stagnation and job loss EU institutions are called upon to provide concrete amelioration for these situations through the design and implementation of effective tax policies in accordance with the fundamental principles of EU law In this original innovative book the author presents a new and expanded view of how special tax zones STZs areas of land where territorial advantages are granted on direct and or indirect taxation can deliver growth and mitigate economic and social emergency Recognizing that although a number of STZs within the EU have been established there is still no systematic framework for them in the EU legal system the author works out a comprehensive theory for STZs in the field of European tax law dealing incisively with the interface of STZs with such essential legal and tax aspects as the following customs union provisions benefits on direct and indirect taxation State aid rules free movement of persons harmful tax competition and role of EU social cohesion policies and their implementation Furthermore the author

develops a new model of STZs for the most disadvantaged areas of the EU the so called Social Cohesion Zone to respond decisively to issues of compatibility with such critical variables of EU law as those dealing with the outer limits set by State aid rules and fundamental freedoms clearly demonstrating the model's practical viability Detailed reviews of Member States practice in existing STZs and their tax regimes are thoroughly described so different variables can be compared As a comprehensive description of the state of knowledge about STZs including the relevant background and their current place in EU law this book has no precedents and no peers It allows practitioners policymakers and academics in tax law to fully understand the relationship between EU law national legislation and STZs focusing on the possibility of reconciling the tax sovereignty of Member States with a supporting and coordinating role of the EU institutions It will be warmly welcomed by the tax law community

Charitable Trust Hospitals get various benefits from the government such as land electricity at subsidised rates concessions on import duty and income tax in return for which they are expected to provide free treatment to a certain number of indigent patients In 2005 a scheme was instituted by the high court formalising that 20 per cent beds set aside for free and concessional treatment at these hospitals In Mumbai these hospitals have a combined capacity of more than 1600 beds However it has been brought to light both by the government and the media that these hospitals routinely flout their legal obligations Considering that charitable hospitals are key resources for provisioning of health services to an already strained public health system it is vital to ensure their accountability This study by CEHAT intended to look at the literature on the history of state aided charitable hospitals in Mumbai and appraise the nature of engagement between the private sector and the state aided hospitals It critically reviewed the data submitted by the state aided charitable hospitals of Mumbai to the Charity Commissioner on free and subsidised patients to estimate the degree of compliance to by the hospitals and also to monitor them The study found that a substantial number of state aided charitable hospitals do not comply with the scheme and the degree of non compliance is quite high Most state aided charitable hospitals never allotted the mandatory 20% beds for treating the poor and instead complained that they were treating too many patients Data reported to the Charity Commission by the state aided charitable hospitals is inadequate inconsistent and unsystematic Charitable hospitals predominantly treat indigent or weaker section patients at the outpatient level because outpatient OP admissions can be passed off as in patient IP admissions in the current scheme of things and frees an extra bed that can earn thousands of rupees per day State aided charitable hospitals invariably underreported donations and bed numbers at the office of the Charity Commissioner No matter how serious the allegations were no kind of penalties were levied on the offending hospitals There was not a single instance where disciplinary action was taken against an offending hospital in Mumbai We hope that the findings of the study would be useful in making key recommendations for effective implementation of the high court scheme especially for guaranteeing access to the poor to the 20% beds that are set aside
