Malcolm Fraser, Cain Roberts

November 2013 English Paper 2 And Memorandum:

Dangerous Allies Malcolm Fraser, Cain Roberts, 2016-04-12 Australia has always been reliant on great and powerful friends for its sense of national security and for direction on its foreign policy first on the British Empire and now on the United States Australia has actively pursued a policy of strategic dependence believing that making a grand bargain with a powerful ally was the best policy to ensure its security and prosperity *Dangerous Allies* examines Australia's history of strategic dependence and questions the continuation of this position It argues that international circumstances in the world and in the Western Pacific especially now make such a policy highly questionable Since the fall of the Soviet Union the United States has also changed dramatically making it less relevant to Australia and a less appropriate ally on which Australia should rely Malcolm Fraser argues that Australia should adopt a much greater degree of independence in foreign policy and that we should no longer merely follow other nations into wars of no direct interest to Australia or Australia's security He argues for an end to strategic dependence and for the timely establishment of a truly independent Australia

Reappraising the Seicento Andrew Cheetham, Joseph Knowles, Jonathan Wainwright, 2014-03-26 *Reappraising the Seicento* presents new perspectives on some relatively well researched areas of music history and adumbrates some more arcane aspects of the period offered by fledgling scholars and early career researchers in the field of musicology The scope of the title has the potential to warrant a tome on the subject but it is not the intention to provide a comprehensive survey of music in the seventeenth century Instead five essays are presented divided into two sections which represent the research activities of young scholars with an interest in the seicento In the first part of this book compositional procedure in seicento Italy is examined through two different analytical procedures Musical styles and fashions changed considerably throughout Europe in the seventeenth century at the forefront of these changes were Italian composers and performers who found fame and influence in their native countries as well as abroad In the second part of this book the dissemination of Italian music in seventeenth century England and the appropriation and assimilation of contemporary Italian compositional techniques by English composers are considered The phenomenal interest shown in Italian music by English patrons and musicians of the seventeenth century is placed into context and is revealed to be part of a larger historical trend Study Guide for CTET Paper 2 (Class 6 - 8 Teachers) Social Studies/ Social Science with Past Questions 5th Edition Disha Experts, 2019-10-21

Children's TV and Digital Media in the Arab World Naomi Sakr, Jeanette Steemers, 2017-03-30 Who analyses children's screen content and media use in Arab countries and with what results Children defined internationally as under 18s account for some 40 per cent of Arab populations and the proportion of under fives is correspondingly large Yet

studies of children's media and child audiences in the region are as scarce as truly popular locally produced media content aimed at children. At the very time when conflict and uncertainty in key Arab countries have made local development and diversification of children's media more remote, it has become more urgent to gain a better understanding of how the next generation's identities and worldviews are formed. This interdisciplinary book is the first in English to probe both the state of Arab screen media for children and the practices of Arabic speaking children in producing as well as consuming screen content. It responds to the gap in research by bringing together a holistic investigation of institutions and leading players, children's media experiences and some iconic media texts. With children's media increasingly linked to merchandising which favours US based global players and globalizing forces, this volume provides a timely insight into tensions between differing concepts of childhood and desirable media messages.

Drawing on the available data, research literature and field practice experience, the nature and extent of corruption are identified, the factors influencing the causes and determining the consequences of corruption are delineated, measures that have been put in place to control corruption are outlined and discussed, and new policy solutions are proposed and advocated to more effectively control the corruption menace in Africa.

Regulating Information Asymmetry in the Residential Real Estate Market Devin Lin, 2017-07-06 This book conducts a detailed examination of the current form of the Hong Kong residential property regulatory system, the 2013 Residential Properties (Firsthand Sales) Ordinance Cap 621. The author sheds light on how the new legislation promotes a number of values including information symmetry, consumer protection, the free market and business efficacy. It provides a detailed account of how the regulatory mechanism has evolved over the past three decades to catch unconscionable sales tactics such as selective information and/or misrepresentation of location, size, completion date and past transactions, and monitor sales practices in order to protect the interests of stakeholders in this ever-changing first-hand residential property market. This book breaks down this complicated subject matter by focusing a number of chapters each on a specific attribute of the residential property on sale. It then examines the various channels through which the information is communicated to the prospective buyer and discusses misrepresentation of the key information in sales of residential properties as criminal liability. The tension between consumer's rights on one hand and the pursuit of free market principles on the other is but one example of the conflicting values thoroughly discussed in the book; others include superstition vs modernization and clarity vs flexibility. Aimed at those with an interest in consumer protection and transparency orientated legislation in commercialized real estate transactions, this book seeks to provide an in-depth discussion of the latest trends and directions of travel.

and Canada Asa McKercher,2016-06-20 In 1958 Senator John F Kennedy of Massachusetts proclaimed at the University of New Brunswick that Canada and the United States have carefully maintained the good fences that help make them good neighbours He could not have foreseen that his presidency would be marked not just by some of the tensest moments of the Cold War but also by the most contentious moments in the Canadian American relationship Indeed the 1963 Canadian federal

election was marked by charges that the US government had engineered a plot to oust John Diefenbaker Canada's nationalist prime minister. Camelot and Canada explores political, economic and military elements in Canada-US relations in the early 1960s. Asa McKercher challenges the prevailing view that US foreign policymakers including President Kennedy were imperious in their conduct toward Canada. Rather, he shows that the period continued to be marked by the special diplomatic relationship that characterized the early postwar years. Even as Diefenbaker's government pursued distinct foreign and economic policies, American officials acknowledged that Canadian objectives legitimately differed from their own and adjusted their policies accordingly. Moreover, for all its bluster, Ottawa rarely moved without weighing the impact that its initiatives might have on Washington. At the same time, McKercher illustrates that there were significant strains on the bilateral relationship which occurred as a result of mounting doubts in Canada about US leadership in the Cold War, growing Canadian nationalism and Canadian concern over their country's close economic, military and cultural ties with the United States. While personal clashes between the two leaders have become mythologized by historians and the public alike, the special relationship between their governments continued to function.

Theorizing the European Neighbourhood Policy Sieglinde Gstöhl, Simon Schunz, 2016-12-19 Despite growing scholarly interest in the EU's flagship policy towards its Eastern and Southern neighbours, serious attempts at theory building on the European Neighbourhood Policy (ENP) have been largely absent from the academic debate. This book aims at contributing to fill this research gap in a three-fold manner: first and foremost, it aims at theorizing the ENP as such, explaining the origins, development and effectiveness of this policy. Building on this effort, it also pursues the broader objective of addressing certain shortcomings in EU external relations theory and even beyond in International Relations theory. Finally, it aspires to provide new insights for European policy makers. It is one of the first volumes to provide different theoretical perspectives on the ENP by revisiting and building bridges between mainstream and critical theories, stimulating academic and policy debates and thus setting a novel, less EU-centric research agenda. This text will be of key interest to scholars, students and practitioners in EU external relations, EU foreign policy, the European Neighbourhood Policy and more broadly in European Union Politics and International Relations.

Lifelong Learning, Global Social Justice, and Sustainability Leona M. English, Peter Mayo, 2021-01-28 This book examines lifelong learning from different angles and follows the trajectory beginning with the expansive notion of lifelong education promoted by the United Nations Educational, Scientific and Cultural Organization (UNESCO) and its subsequent version intended to better suit the neoliberal framework and make EU countries more competitive in the global economy. The authors critique this version of lifelong learning by contrasting it with the notion of critical literacy. They also devote attention to the UN's advocacy concerning lifelong education and sustainable development, arguing that for lifelong learning to help realize this goal, it needs to become more holistic in scope and engage more globally conceived social and human-earth relations. The book concludes with a discussion on lifelong learning and the COVID-19 pandemic.
