

DSLR-A580L

Don't let life pass you by. Get the fast action that other cameras miss thanks to Sony's Quick AF Live View. Take in the landscape with 3D Sweep Panorama™ mode.¹ See into the dark with Handheld Twilight and Multi-Frame NR modes. And preserve your memories with amazing Full HD 1080i movies.²

- **18.2 megapixel³ amazing pictures**
You get incredible detail and gorgeous enlargements. Thanks to the APS-C sensor size and Sony's Exmor™ APS HD CMOS technology, the camera achieves high resolution with no penalty in low-light sensitivity or sensor noise.
- **Full HD 1080i/60i movies²**
The DSLR-A580L captures Full HD video at 1920x1080/30p and records in 1920x1080/60i and is one of the very few DSLRs with exactly the same resolution and frame rate as most broadcast and cable HDTV channels. You also have the option of recording HD video in 720p in web-friendly MP4 format.
- **APS-C size HD CMOS image sensor**
With 19.5 times the area of the typical camcorder⁴ image sensor, APS-C makes the difference between amateur and professional-looking video. The DSLR-A580L delivers an exceptional combination of high resolution capture, high sensitivity performance, and gorgeous, defocused backgrounds.
- **Quick Auto Focus Live View**
Unlike competing cameras, the DSLR-A580L is just as responsive in Quick Auto Focus Live View mode as in optical viewfinder mode. That's because, unlike the others, the A580L uses the same "phase detection" auto-focus for Live View as for the optical viewfinder. While other Live View systems are severely restricted, Sony's performs superbly any time—even if you're shooting handheld or chasing after moving subjects like kids or pets.
- **More responsive Live View**
Some Live View systems take a painfully long time to focus. Some even black out the LCD before focus. Other can cause you to miss shots. Sony's Quick Auto Focus Live View solves these problems, making it easier to get the best shot.

- **Focus Check Live View**
For critical focus in macro and tripod shooting, the A580L also offers Focus Check Live View. Temporary 7x and 14x zoom views enable you to focus on extremely fine detail while the 1x view shows 100% framing in the LCD.
- **Multi-Frame NR**
Experience incredible low-light shooting without a flash. The camera captures six images in a fraction of a second. Combining the data from all six, it creates a single image with a reduction in noise equivalent to two additional stops of ISO sensitivity. Sensitivity selectable up to ISO 25600. (Recommended for still subjects.)
- **Hand-held Twilight**
Get cleaner and sharper nighttime pictures—beyond the capability of traditional cameras—without using flash or a tripod. The camera captures six images in a fraction of a second. Combining the data with separate algorithms for still and moving parts of the picture reduces blur, minimizes noise, and enables extraordinary detail.
- **Auto HDR built into camera**
Captures more scene dynamic range than a single exposure can handle—and more range than photo film. Combines the best highlight detail from one shot, the best mid-tones from a second and the best shadow detail from a third for one incredible shot. Captures in a split second. (Recommended for still subjects.)
- **ISO 12800 sensitivity**
- **15-Point Auto Focus Sensor**
- **Face Detection technology**
- **Smile Shutter™ technology**
- **Help Guide**
