Ascending China and the Hegemonic United States Jörg Vogelmann, 2020-09-04 Jörg Vogelmann looks into one of the central political and economic relationships of the 21st century. The author finds Sino U S ties marked by strong slightly asymmetric economic interdependence, a relatively fast economic power transition under way as well as slow to moderate shifts in military power. He develops a neoliberal and a neorealist grand theory picture of Sino U S and international relations and empirically verifies these influential perspectives by analyzing post Cold War Chinese and U S foreign policies in the major flashpoints: the Taiwan and the North Korea issue. Despite and due to globalization ties between ascending China as a potential regional or once even global U S challenger and the hegemonic United States may likely continue to be marked by strategic power politics and will decisively affect trans and international relations.
