Knowledge Management and Intellectual Property Stathis Arapostathis, Graham Dutfield, 2013-01-01 This diverse and insightful volume investigates changing patterns of knowledge management practices and intellectual property regimes across a range of different techno scientific disciplines and cultures The book links the practices and regimes of the past with those of contemporary and emerging forms covering the mid 19th century to the present The contributors are noted scholars from various disciplines including history of science and technology intellectual property law and innovation studies The chapters offer original perspectives on how proprietary regimes in knowledge production processes have developed as a socio political phenomenon of modernity as well as providing an analysis of the way individuals institutions and techno sciences interact within this culture With in depth analysis this book will appeal to academics and students of STS Science Technology and Society history of science and technology business history innovation studies law science and technology policy as well as business studies Historians of science and technology and business will also find much to interest them in this book

Cybernethisms Esteban García Bravo, 2015 Working extensively as both artist and scientist Aldo Giorgini 1934 1994 was one of the first computer artists to combine software writing with early printing technologies His innovative process involved producing pen plotted drawings that were embellished by painting drawing photography and screen printing This biography is the first to uncover the remarkable work and life of an underappreciated artist providing insights into the innovative methods and computerized techniques he used to weave creations that seamlessly combined technological sophistication with artistic sensibility Buried manuscripts documentation and art taken directly from Giorgini s former studio in Indiana have been used to tell the story of this digital pioneer The book explores the artist s life as a professor of civil engineering at Purdue University as well as providing a catalog of his artistic contributions Placing his work in the context of the wider development of computer art the book also presents a valuable contribution to the history of the field Giorgini s papers have been recently transferred to Purdue University s Virginia Kelly Karnes Archives and Special Collections Research Center where they will be preserved and made accessible for future researchers of digital media art history While complete in itself this book also plays an important role in contextualizing and providing an access point for that collection

Dancefloor-Driven Literature Simon A. Morrison, 2020-05-14 Almost as soon as club culture took hold during the UK s Second Summer of Love in 1988 its sociopolitical impact became clear with journalists filmmakers and authors all keen to use this cultural context as source material for their texts This book uses that electronic music subculture as a route into an analysis of these principally literary representations of a music culture why such secondary artefacts appear and what function they serve The book conceives of a new literary genre to accommodate these stories born of the dancefloor dancefloor driven literature Using interviews with Irvine Welsh author of *Trainspotting* 1994 alongside other dancefloor driven authors Nicholas Blincoe and Jeff Noon as case studies the book analyzes three separate ways writers draw on

electronic dance music in their fictions interrogating that very particular intermedial intersection between the sonic and the linguistic It explores how such authors write about something so subterranean as the nightclub scene and analyses what specific literary techniques they deploy to write lucidly and fluidly about the metronomic beat of electronic music and the chemical accelerant that further alters that relationship *Research Methods for Sports Studies* Ian Jones,2022-02-28 *Research Methods for Sports Studies* is a comprehensive engaging and practical textbook that provides a grounding in qualitative and quantitative research for students studying programmes related to sport and physical activity Leading the reader step by step through the entire research process from identifying a research question and collecting and analysing data to writing and presenting the research report the book is richly illustrated throughout with sport related case studies and examples from around the world *Research Methods for Sports Studies* is designed to be a complete and self contained companion to any research methods course and contains a wealth of useful features such as highlighted definitions of key terms all new case studies from active researchers and practical research exercises Now in a revised and updated fourth edition and in full colour for the first time the book features expanded coverage of key topics such as online research data visualisation image analysis source evaluation mixed methods and the philosophical foundations of research It also includes new material on the challenges of researching during a pandemic and reflects on the importance of diversity and inclusion from feminist and indigenous methodologies to increased diversity of cases and researcher voices This is an essential read for any student undertaking a dissertation or research project as part of their studies in sport exercise and related fields including sport management sport development the sociology of sport sport marketing sport related tourism sport coaching physical education and other similar degrees Additional online material is available for students and instructors including web links multiple choice revision questions PowerPoint slides and additional learning activities for use in and out of class
