

Generalized Anxiety Disorder

Generalized Anxiety Disorder (GAD) is characterized by constant worry about aspects of daily life. Children and teens with GAD worry about danger, failure, uncertainty, disappointment, illness and certainty. They may often feel tired, restless, tense, or irritable. They may have trouble concentrating or sleeping.

Who gets Generalized Anxiety Disorder?

GAD runs in families, meaning that it can be linked to genetics.

GAD may occur in kids who have been anxious or cautious since early childhood.

Trauma, stress, and parental overprotection are risk factors for GAD.

GAD occurs in 3-4% of children and teenagers, and is about 2 times as common in females than males.

How can my parent help me?

My parent can help me **create structure and predictability** in my life. We can build daily routines that include family time, regular meals, and regular sleep and wake times.

Model stress management. Kids learn from the way their parents manage problems, uncertainty, and disappointment. Parents don't have to be perfect, but they can show that problems can be worked through, uncertainty can be managed and disappointment can be survived.

The Parent's Guide to Eating Disorders Marcia Herrin, Nancy Matsumoto, 2010-02-01 The Parent's Guide to Eating Disorders shows that effective solutions begin at home and cost little more than a healthy investment of time, effort, and love. Based on exciting new research, it differs from similar books in several key ways. Instead of concentrating on the grim, expensive hospital stays of patients with severe disorders, the authors focus on the family, teaching parents how to examine and understand their family's approach to food and body image issues and its effect on their child's behavior. Parents learn to identify an eating disorder early to establish healthy attitudes toward food at a young age and to intervene in a nonthreatening, nonjudgmental way. The authors concentrate on teens, the age group most often affected by eating disorders, as well as younger children. Individual chapters cover boys at risk, relapse training, dealing with friends, school, and summer camp, and much more. The book includes an appendix and sections on further reading, organizations, and websites, residential and hospital programs, and references.
