The Channel Advantage Tim Furey, Lawrence Friedman, 2012-05-23 Channel innovation is separating market winners from market losers and not just in leading edge technology industries. In a business world where industry players are selling practically the same products at essentially the same prices at about the same cost, the only real source of sustainable competitive advantage is the sales channel: how you sell, not what you sell. Selling becomes a question of how to connect products with customers via the best mix of sales channels: the sales force, value-added partners, distributors, retail stores, telemarketing and the Internet. In short, how companies sell has become as important as what they sell. The Channel Advantage explains how leading companies develop strategies that integrate e-commerce, telemarketing, sales forces and distributors to achieve superior sales performance and sustainable competitive advantage.
