Sheras, Timothy R. Konold, Richard R. Abidin, 1998 **Parenting Stress** Kirby Deater-Deckard, 2008-10-01 All parents experience stress as they attempt to meet the challenges of caring for their children This comprehensive book examines the causes and consequences of parenting distress drawing on a wide array of findings in current empirical research Kirby Deater Deckard explores normal and pathological parenting stress the influences of parents on their children as well as children on their parents and the effects of biological and environmental factors Beginning with an overview of theories of stress and coping Deater Deckard goes on to describe how parenting stress is linked with problems in adult and child health emotional problems developmental disorders illness parental behaviors warmth harsh discipline and factors outside the family marital quality work roles cultural influences The book concludes with a useful review of coping strategies and interventions that have been demonstrated to alleviate parenting stress *Forensic Uses of Clinical Assessment Instruments* Robert P. Archer, Elizabeth M. A. Wheeler, 2013-04-26 This book provides in a single volume an extensive research based evaluation of the most popular clinical assessment tools as applied in forensic settings These widely used instruments often require important modifications in their administration and interpretation when used for forensic purposes and it is vital that the clinician is intimately familiar with their correct application as well as their limitations The test instruments included are analyzed by senior figures in the field of psychological assessment who are uniquely qualified to discuss them because they have either had a crucial role in the development of the tests or they have dedicated their careers to advancing our understanding of these clinical assessment measures Each chapter begins with a summary of the development of the assessment instrument in its more traditional applications in clinical settings and then considers its utilization in forensic settings The types of forensic issues which have been addressed with that instrument are reviewed and an illustrative case example is given which reflects the types of uses and limitations of the assessment technique when applied in a forensic context New in this edition are a chapter on the MMPI 2 RF and separate chapters for the adult and youth versions of the Hare Psychopathy Checklist Psychologists using assessment instruments in applied forensic settings will find this to be a valuable and practical source of information as will attorneys wishing to gain an understanding of the application of these psychological assessment approaches in the courtroom *Handbook of Fathers and Child Development* Hiram E.
