Running vs. Swimming

Running and swimming are excellent exercises for our body. They help us control our weight, reduce our risk of diseases, and improve our mental health. Though both are very popular, people still have reasons to choose one over the other. For example, running doesn't require a lot of investment because you only need your sneakers, and you can run anywhere. However, for swimming, you need to prepare swimming suits, goggles and sometimes even swimming caps. Also, swimming is refreshing in hot weather while running is not. What's more, there are different swimming strokes, but there is only one way to run.
