Restorative and Responsive Human Services Gale Burford, John Braithwaite, Valerie Braithwaite, 2019-03-04 In Restorative and Responsive Human Services Gale Burford John Braithwaite and Valerie Braithwaite bring together a distinguished collection providing rich lessons on how regulation in human services can proceed in empowering ways that heal and are respectful of human relationships and legal obligations The human services are in trouble combining restorative justice with responsive regulation might redeem them renewing their well intended principles Families provide glue that connects complex systems What are the challenges in scaling up relational practices that put families and primary groups at the core of health education and other social services This collection has a distinctive focus on the relational complexity of restorative practices How do they enable more responsive ways of grappling with complexity than hierarchical and prescriptive human services Lessons from responsive business regulation inform a re imagining of the human services to advance wellbeing and reduce domination Readers are challenged to re examine the perverse incentives and contradictions buried in policies and practices How do they undermine the capacities of families and communities to solve problems on their own terms This book will interest those who harbor concerns about the creep of domination into the lives of vulnerable citizens It will help policymakers and researchers to re focus human services to fundamental outcomes at the foundation of sustainable democracies This book is available for free in PDF format as Open Access from the individual product page at www.routledge.com It has been made available under a Creative Commons Attribution Non Commercial No Derivatives 4.0 license

Restorative Justice and Family Violence Joan Pennell, 2025-09-25 By engaging families in taking charge of their affairs restorative justice can reverse family violence But the expansion of restorative programming into family violence is stymied by fears of setting family members at risk and heightening agency liability if harm results How does this anthology counter these fears In response it provides two decades of studies documenting successes of a restorative approach with gendered and intergenerational violence It offers feminist frameworks to explain how these successes are achieved And finally the author turns to cultural and religious messages from her own upbringing as a Quaker Religious Society of Friends to explain why a restorative approach makes lasting and just peace in homes The aim is to encourage others to identify such principles in their own backgrounds to safely and confidently expand the use of restorative programming to safeguard children and adults in the home

Beyond the Risk Paradigm in Child Protection Marie Connolly, 2017-09-16 For decades child protection systems have striven to provide responsive services to vulnerable children and families in the face of the constant change and instability caused by the bureaucratization of child protection This book lends a strident voice to the argument for a shift beyond the current risk paradigm towards genuine cultural change

International Perspectives and Empirical Findings on Child Participation Tali Gal, Benedetta Duramy, 2015-03-20 The 1989 UN Convention on the Rights of the Child has inspired advocates and policy makers across the globe injecting children's rights terminology into various

public and private arenas Children's right to participate in decision making processes affecting their lives is the acme of the Convention and its central contribution to the children's rights discourse At the same time the participation right presents enormous challenges in its implementation Laws regulations and mechanisms addressing children's right to participate in decision making processes affecting their lives have been established in many jurisdictions across the globe Yet these worldwide developments have only rarely been accompanied with empirical investigations The effectiveness of various policies in achieving meaningful participation for children of different ages cultures and circumstances have remained largely unproven empirically Therefore with the growing awareness of the importance of evidence based policies it becomes clear that without empirical investigations on the implementation of children's right to participation it is difficult to promote their effective inclusion in decision making This book provides a much needed first broad portrayal of how child participation is implemented in practice today Bringing together 19 chapters written by prominent authors from the United States Canada the United Kingdom Ireland New Zealand Australia and Israel the book includes descriptions of programs that engage children and youth in decision making processes as well as insightful findings regarding what children their families and professionals think about these programs Beyond their contribution to the empirical evidence on ways children engage in decision making processes the volume's chapters contribute to the theoretical development of the meaning of participation citizenship inclusiveness and relational rights in regards to children and youth There is no matching to the book's scope both in terms of its breadth of subjects and the diversity of jurisdictions it covers The book's chapters include experiences of child participation in special education child protection juvenile justice restorative justice family disputes research and policy making
