Attract more customers in more locations

With the smallest footprint in the SelfServ range, the SelfServ 14 can be profitably deployed into a wide range of banking and off-premise locations. When the SelfServ14 is combined with NCR APTRA™ software suite and PC core based technology, it becomes an ideal choice for Financial Institutions to integrate within their existing networks. Plus, the backlit topper gives you additional advertising space to attract more customers.

Proactively fixes itself

Keep your ATMs up and running, offering your customers the transactions they want, when and where they need them. NCR's express recovery and self-healing technology reduces downtime from hours to minutes—making your ATMs available around the clock.

Keeps you informed

Successful network management is about having the right information at your fingertips. NCR SelfServ ATMs provide data in real-time on configurations, software versions and the activity levels of each module. So you can see, understand and control your entire network—and make more empowered decisions.

Inspire trust in your ATM network

Our SelfServ ATMs are designed to defend against known and unknown fraud attacks, even before they start. Ask us about our multi-layered approach to ATM security including logical and physical solutions. For example Solidcore Suite for APTRA protects against the execution of unauthorized code on your ATM network and our Skimming Protection Solution protects cardholder data from card skimming attacks.
