Ndrawing Question Paper 2014:

Collective and Collaborative Drawing in Contemporary Practice Helen Gørrill, Jill Journeaux, 2018-01-23 Whilst both collective and collaborative drawing is being widely explored internationally both within and beyond educational institutions there is surprisingly little serious research published on the topic This realisation led to the first international Drawing Conversations Symposium accompanied by the Drawn Conversations Exhibition at Coventry University UK in December 2015 The two events drew a strong and global response and brought together a wide range of participants including academics artists researchers designers architects and doctoral students This book considers what happens and how when people draw together either in the form of a collaboration or through a collective process The contributions here serve to establish the field of collective and collaborative drawing as distinct from the types of drawing undertaken by artists designers and architects within a professional context The volume covers conversations through the act of drawing collaborative drawing drawing communities and alternative drawing collaborations
