How criminal justice policies are creating a nation divided by race, class, and morality. **The Semiotics of Light and Shadows** Piotr Sadowski, 2017-12-28

Lighting and shadows are used within a range of art forms to create aesthetic effects. Piotr Sadowski's study of light and shadow in Weimar cinema and contemporaneous visual arts is underpinned by the evolutionary semiotic theories of indexicality and iconicity. These theories explain the unique communicative and emotive power of light and shadow when used in contemporary indexical media, including the shadow theatre, silhouette portraits, camera obscura photography, and film. In particular, Sadowski highlights the aesthetic and emotional significance of shadows. The cast shadow as an indexical sign maintains a physical connection with its near-present referent, such as a hidden person stimulating a viewer's imagination and provoking responses including anxiety or curiosity. The cinematic shadow plays a stylistic role by enhancing image texture, depth of field, and tonal contrast of cinematic moments. Such enhancements are especially important in monochromatic films, and Sadowski interweaves the book with accounts of seminal Weimar cinema moments. Sadowski's book is distinctive for combining historical materials and theoretical approaches to develop a deeper understanding of Weimar cinema and other contemporary art forms. *The Semiotics of Light and Shadows* is an ideal resource for both scholars and students working in linguistics, semiotics, film, media, and visual arts. Blackout Sheri Chinen Biesen, 2005-11-11

Sheri Chinen Biesen challenges conventional thinking on the origins of film noir and finds the genre's roots in the political, social, and historical conditions of Hollywood during the Second World War. Through a Noir Lens Sheri Chinen Biesen, 2024-06-18

Shadows, smoke, dark alleys, rain-slicked city streets. These are iconic elements of film noir visual style. Long after its 1940s heyday, noir hallmarks continue to appear in a

variety of new media forms and styles What has made the noir aesthetic at once enduring and adaptable Sheri Chinen Biesen explores how the dark cinematic noir style has evolved across eras from classic Hollywood to present day streaming services Examining both aesthetics and material production conditions she demonstrates how technological and industrial changes have influenced the imagery of film noir When it emerged in the early 1940s the visual style's distinctive shadowy look was in part a product of wartime cinema conditions and technologies such as blackouts and nitrate film stock Since the 1950s technical developments from acetate film stock and new cameras and lenses to lighting color and digitization have shaped the changing nature of noir style Biesen considers the persistence of the noir legacy discussing how neo noirs reimagine iconic imagery and why noir style has become a touchstone in the streaming era Drawing on a wealth of archival research she provides insightful analyses of a wide range of works from masterpieces directed by Billy Wilder and Alfred Hitchcock to New Hollywood neo noirs the Coen brothers revisionist films and recent HBO and Netflix series A groundbreaking technological and industrial history of an essential yet slippery visual style Through a Noir Lens shines a light into the shadows of film noir
