Insight Turkey 2015 - Fall 2015 (Vol. 17, No. 4) , Last year was the year of elections in Turkey with two parliamentary elections and months long electoral campaigns that dominated the political agenda of the country The parliamentary elections of June 7 2015 brought an end to the AK Party's 12 year long era of parliamentary majority and single party government in Turkey Nevertheless the endeavors to form a coalition government could not be concluded successfully and another election appeared on the horizon The country was ruled by an AK Party led interim government and the elections were repeated five months later on November 1 2015 While close in time the two elections were quite distant with regard to the political contexts in which they were carried out and in their respective results The November elections witnessed a comeback for the AK Party which increased its votes by over 9 points with the addition of five million new votes in the ballot box *The Elgar Companion to Geography, Transdisciplinarity and Sustainability* Fausto O. Sarmiento, Larry M. Frolich, 2020-05-29 With contributions from top geographers this Companion frames sustainability as exemplar of transdisciplinary science critical geography while improving future scenarios debating perspectives between rich North poor South modern urban backwards rural and everything in between The Companion has five sections that carry the reader from foundational considerations to integrative trends to resources use and accommodation to examples highlighting non traditional pathways to a postscript about cooperation of the industrialized Earth and a prognosis of the road ahead for the new geographies of sustainability *Towards Good Order at Sea* Thomas Mandrup, Francois Vre~, 2015-03-01 The problems originating from the resultant bad order at sea can be directly felt on land when smuggling terrorism and related criminal activities operate more or less unhindered The book provides an important mapping of the challenges preventing good order at sea off the African coast and East Africa in particular Rear Admiral N Wang Commandant Royal Danish Defence College

State Politics and the Affordable Care Act John C. Morris, Martin K. Mayer, Robert C. Kenter, Luisa M. Lucero, 2019-06-21 After a great deal of discussion and debate across all levels of government President Obama signed the Affordable Care Act ACA into law in March 2010 Since President Trump's election into office the ACA has stayed in the headlines Trump has continued to call for the replacement and repeal of the ACA and several efforts have spawned in both the House and the Senate to accomplish this goal Unlike welfare reform which was generally embraced by all states the ACA has proven very divisive in some states with some states actively seeking to block implementation Alternative solutions continue to prove elusive To better understand the major factors driving decision making process and state level dynamics influencing state support or opposition of the ACA this book examines the initial implementation through established support and opposition factors across four states Alabama Michigan California and New Hampshire The choices made by states are a direct consequence of long term forces and the choices made at the national level *State Politics and the Affordable Care Act* will be of interest to scholars researching in public administration policy formulation and implementation and policy analysis

Writing Home Glenn Morrison, 2017-01-30 *Writing Home* explores the literary representation of Australian places by those who have walked them In particular it examines how Aboriginal and settler narratives of walking have shaped portrayals of Australia's Red Centre and consequently ideas of nation and belonging Central Australia has long

been characterised as a frontier the supposed divide between black and white ancient and modern But persistently representing it in this way is preventing Australians from re imagining this internationally significant region as home Writing Home argues that the frontier no longer adequately describes Central Australia and that the Aboriginal songlines make a significant but under acknowledged contribution to Australian discourses of hybridity belonging and home Drawing on anthropology cultural theory journalism politics and philosophy the book traces shifting perceptions of Australian place and space since precolonial times through six recounted walking journeys of the Red Centre

Conservation Agriculture in Subsistence Farming Catherine Chan, Jean Fantle-Lepczyk, 2015-06-16 Conservation agriculture systems have long term impacts on livelihoods agricultural production gender equity and regional economic development of tribal societies in South Asia This book presents South Asia as a case study due to the high soil erosion caused by monsoon rainfall and geophysical conditions in the region which necessitate conservation agriculture approaches and the high percentage of people in South Asia relying on subsistence and traditional farming The book takes an interdisciplinary approach to analyse systems at scales ranging from household to regional and national levels

The Road to Unfreedom Timothy Snyder, 2019-04-09 NEW YORK TIMES BESTSELLER From the author of On Tyranny comes a stunning new chronicle of the rise of authoritarianism from Russia to Europe and America A brilliant analysis of our time Karl Ove Knausgaard The New Yorker With the end of the Cold War the victory of liberal democracy seemed final Observers declared the end of history confident in a peaceful globalized future This faith was misplaced Authoritarianism returned to Russia as Vladimir Putin found fascist ideas that could be used to justify rule by the wealthy In the 2010s it has spread from east to west aided by Russian warfare in Ukraine and cyberwar in Europe and the United States Russia found allies among nationalists oligarchs and radicals everywhere and its drive to dissolve Western institutions states and values found resonance within the West itself The rise of populism the British vote against the EU and the election of Donald Trump were all Russian goals but their achievement reveals the vulnerability of Western societies In this forceful and unsparing work of contemporary history based on vast research as well as personal reporting Snyder goes beyond the headlines to expose the true nature of the threat to democracy and law To understand the challenge is to see and perhaps renew the fundamental political virtues offered by tradition and demanded by the future By revealing the stark choices before us between equality or oligarchy individuality or totality truth and falsehood Snyder restores our understanding of the basis of our way of life offering a way forward in a time of terrible uncertainty

Rare Earth Frontiers Julie M. Klinger, 2018-01-15 Rare Earth Frontiers is a work of human geography that serves to demystify the powerful elements that make possible the miniaturization of electronics green energy and medical technologies and essential telecommunications and defense systems Julie Michelle Klinger draws attention to the fact that the rare earths we rely on most are as common as copper or lead and this means the implications of their extraction are global Klinger excavates the rich historical origins and ongoing ramifications of the quest to mine rare earths in ever more impossible places Klinger

writes about the devastating damage to lives and the environment caused by the exploitation of rare earths She demonstrates in human terms how scarcity myths have been conscripted into diverse geopolitical campaigns that use rare earth mining as a pretext to capture spaces that have historically fallen beyond the grasp of centralized power These include legally and logistically forbidding locations in the Amazon Greenland and Afghanistan and on the Moon Drawing on ethnographic archival and interview data gathered in local languages and offering possible solutions to the problems it documents this book examines the production of the rare earth frontier as a place a concept and a zone of contestation sacrifice and transformation

Global Governance and India's North-East Ranabir Samaddar, Anita Sengupta, 2019-06-04 This book maps the convergence of governance and connectivity within Asia established through the spatial dynamics of trade capital conflict borders and mobility It situates Indian trade and governance policies within a broader Asian and global context Focussing on India's North East in particular on India's Look and Act East Policy the volume underscores how logistical governance in the region can bring economic and political transformations It explores the projected development of the North East into a gateway of transformative cultural interaction among people just as the Silk Road became a conduit for Buddhism to travel along with musical instruments and tea Comprehensive and topical this book will be useful for scholars and researchers of political studies international relations governance studies development studies international trade and economics and for think tanks working on South and Southeast Asia

Curated Decay Caitlin DeSilvey, 2017-02-14 Transporting readers from derelict homesteads to imperiled harbors postindustrial ruins to Cold War test sites Curated Decay presents an unparalleled provocation to conventional thinking on the conservation of cultural heritage Caitlin DeSilvey proposes rethinking the care of certain vulnerable sites in terms of ecology and entropy and explains how we must adopt an ethical stance that allows us to collaborate with rather than defend against natural processes Curated Decay chronicles DeSilvey's travels to places where experiments in curated ruination and creative collapse are under way or under consideration It uses case studies from the United States Europe and elsewhere to explore how objects and structures produce meaning not only in their preservation and persistence but also in their decay and disintegration Through accessible and engaging discussion of specific places and their stories it traces how cultural memory is generated in encounters with ephemeral artifacts and architectures An interdisciplinary reframing of the concept of the ruin that combines historical and philosophical depth with attentive storytelling Curated Decay represents the first attempt to apply new theories of materiality and ecology to the concerns of critical heritage studies

Complexity and Crisis in the Financial System Matthew Hollow, Folarin Akinbami, Randal Michie, 2016-01-29 What are the long term causes and consequences of the global financial crisis of 2007-2008 This book offers a fresh perspective on these issues by bringing together a range of academics from law history economics and business to look in more depth at the changing relationships between crises and complexity in the US and UK financial markets The contributors are motivated by three main questions Is the present financial system more complex than in the past and if so

why To what extent and in what ways does the worldwide financial crisis of 2007 2008 differ from past financial crises How can governments regulators and businesses better manage and deal with increased levels of complexity both in the present and in the future Students and scholars of finance economics history financial law banking and international business will find this book to be of interest It will also be of use to regulators and policymakers involved in the US and UK banking sectors

The Econocracy Joe Earle,Cahal Moran,Zach Ward-Perkins,2017-07-06 A century ago the idea of the economy didn't exist Now economics is the supreme ideology of our time with its own rules and language The trouble is most of us can't speak it This is damaging democracy Dangerous agendas are hidden inside mathematical wrappers controversial policies are presented as proven by the models of economic science Government is being turned over to a publicly unaccountable technocratic elite The Econocracy reveals that economics is too important to be left to the economists and shows us how we can begin to participate more fully in the decisions which affect all our futures

The Problem of Social Inequality Scott G. McNall,2015-12-07 Within and among nations rising levels of social inequality threaten our collective future Currently upwards of 80% of people's life chances are determined by factors over which they have absolutely no control Social inequality threatens the democratic project because it destroys the trust on which governments depend and it gives rise to corrupt political and economic institutions How can we get out of the traps we have created for ourselves We need to reboot capitalism Drawing on diverse examples from a range of countries McNall explains the social economic and ecological traps we have set for ourselves and develops a set of rules of resilience that are necessary conditions for the creation and maintenance of democratic societies and a set of rules essential for creating a sustainable future
