

# Physician-Assisted Suicide:

*What is it, and is it worth fighting over?*

*definition*

"Physician-assisted suicide (PAS) is a process whereby patients with **terminal diseases**, who are deemed to have **less than six months to live**, can make legal requests of **physicians to help them end their lives**." It's usually done with a lethal overdose of barbiturates prescribed by a doctor.

*vs. euthanasia*

PAS is very similar to euthanasia, with **one important distinction**. In **euthanasia**, the life-ending medication is **administered by someone other than the dying person**, such as the doctor himself. With PAS, the doctor only prescribes the medication, and the patient ingests the medication themselves.<sup>2</sup>

*(You might also hear it called "physician-assisted death" or "medical aid in dying.")*
