Obamacare Implementation United States. Congress. House. Committee on Oversight and Government Reform, 2014

Obamacare United States. Congress. House. Committee on Oversight and Government Reform. Subcommittee on Health Care, District of Columbia, Census, and the National Archives, 2011 *Obamacare: What's in It for Me?* Wendell

Potter, 2013-12-06 On January 1 2014 the most important consumer protections in ObamaCare the Affordable Care Act go into effect With both supporters and opponents of the law debating its merits and its controversial rollout there is a need for news you can use types of resources from credible third parties Enter Wendell Potter author of *Deadly Spin* and former health insurance executive *Obamacare What s in It for Me* is the authoritative source for Americans needing to know how the law will affect them and their families How will it affect the millions of Americans who already have coverage through their employers People who work for small companies that don t offer coverage The unemployed People who are in their 20s 30s and 40s some of whom may find that coverage costs them more than before Older Americans not yet eligible for Medicare many of whom will be able to get much more affordable coverage Medicare beneficiaries Low to moderate income individuals and families People with pre existing conditions Children As a former insurance industry insider and now a recognized expert on ObamaCare Wendell Potter is perfectly positioned to explain to a wide audience hungry for the real story without the spin of just what this health care overhaul means for all of us **Examining Obamacare's Failures in Security,**

Accountability, and Transparency United States. Congress. House. Committee on Oversight and Government Reform, 2015

The Cure for Obamacare Sally Pipes, 2013-07-02 This Broadside will look at the changes that can be made to halt the full implementation of the law over the next few years including repealing parts of the act that are unpopular with members of both parties These parts are the medical device tax IPAB the new 3.8 percent tax on unearned income to name a few Also covered will be potential reforms to Medicare and Medicaid two major entitlement programs that if not reformed to ensure sustainability for those who really need these programs will be bankrupt by 2024 There are a number of important lawsuits that will come before the courts this year on issues such as the exchanges employer and individual mandates and the contraception mandate These will be highlighted and their potential impact on the law will be discussed Finally there is the issue of defunding the Medicaid expansion and the federal tax subsidies which unless changed will add tremendously to the cost of health care in this country With the current fiscal crisis these programs must be scaled back Like welfare reform the battle to bring about meaningful health care reform is a long term fight We must not give up The election of 2016 will be very important for the future direction of health care A reform plan will be offered If Obamacare is not repealed and replaced the U S will be on the road to a single payer Medicare for All system such as exists in Canada We too will face long waiting lists rationed care and a lack of access to the latest technology and treatments Examples will be given America will be on the Road to Serfdom and there will be no off ramp The Paper Office for the Digital Age, Fifth Edition Edward L.

Beyond Obamacare James S. House, 2015-05-31 Health care spending in the United States today is approaching 20 percent of GDP yet levels of U.S. population health have been declining for decades relative to other wealthy and even some developing nations How is it possible that the United States which spends more than any other nation on health care and insurance now has a population markedly less healthy than those of many other nations Sociologist and public health expert James S House analyzes this paradoxical crisis offering surprising new explanations for how and why the United States has fallen into this trap In Beyond Obamacare House shows that health care reforms including the Affordable Care Act cannot resolve this crisis because they do not focus on the underlying causes for the nation's poor health outcomes which are largely social economic environmental psychological and behavioral House demonstrates that the problems of our broken health care and insurance system are interconnected with our large and growing social disparities in education income and other conditions of life and work and calls for a complete reorientation of how we think about health He concludes that we need to move away from our misguided and almost exclusive focus on biomedical determinants of health and to place more emphasis on addressing social economic and other inequalities House's review of the evidence suggests that the landmark Affordable Care Act of 2010 and even universal access to health care are likely to yield only marginal improvements in population health or in reducing health care expenditures In order to rein in spending and improve population health we need to refocus health policy from the supply side which makes more and presumably better health care available to more citizens to the demand side which would improve population health through means other than health care and insurance thereby reducing need and spending for health care House shows how policies

that provide expanded educational opportunities more and better jobs and income reduced racial ethnic discrimination and segregation and improved neighborhood quality enhance population health and quality of life as well as help curb health spending He recommends redirecting funds from inefficient supply side health care measures toward broader social initiatives focused on education income support civil rights housing and neighborhoods and other reforms which can be paid for from savings in expenditures for health care and insurance A provocative reconceptualization of health in America Beyond Obamacare looks past partisan debates to show how cost efficient and effective health policies begin with more comprehensive social policy reforms

Not All In Tiffany D. Joseph, 2025-03-11 Examines how health policy shifts fail to fully serve immigrant communities due to structural racism and anti immigrant rhetoric and enforcement measures Despite progressive policy strides in health care reform immigrant communities continue to experience stark disparities across the United States In *Not All In* Tiffany D Joseph exposes the insidious contradiction of Massachusetts advanced health care system and the exclusionary experiences of its immigrant communities Joseph illustrates how patients race ethnicity and legal status determine their access to health coverage and care services revealing a disturbing paradox where policy advances and individual experiences drastically diverge Examining Boston's Brazilian Dominican and Salvadoran communities this book provides an exhaustive analysis spanning nearly a decade to highlight the profound impacts of the Affordable Care Act and subsequent policy shifts on these marginalized groups *Not All In* is a critical examination of the systemic barriers that perpetuate health care disparities Joseph challenges readers to confront the uncomfortable truths about racialized legal status and its profound implications on health care access This essential book illuminates the complexities of policy implementation and advocates for more inclusive reforms that genuinely cater to all Urging policymakers health care providers and activists to rethink strategies that bridge the gap between legislation and life this book reminds us that in the realm of health care being progressive is not synonymous with inclusivity

The Big Con Mariana Mazzucato, Rosie Collington, 2025-05-20 A vital and timely investigation into the opaque and powerful consulting industry and what to do about it There is an entrenched relationship between the consulting industry and the way business and government are managed today that must change Mariana Mazzucato and

Rosie Collington show that our economies reliance on companies such as McKinsey Company Boston Consulting Group Bain Company PwC Deloitte KPMG and EY stunts innovation obfuscates corporate and political accountability and impedes our collective mission of halting climate breakdown The Big Con describes the confidence trick the consulting industry performs in contracts with hollowed out and risk averse governments and shareholder value maximizing firms It grew from the 1980s and 1990s in the wake of reforms by the neoliberal right and Third Way progressives and it thrives on the ills of modern capitalism from financialization and privatization to the climate crisis It is possible because of the unique power that big consultancies wield through extensive contracts and networks as advisors legitimators and outsourcers and the illusion that they are objective sources of expertise and capacity In the end the Big Con weakens our businesses infantilizes our governments and warps our economies In The Big Con Mazzucato and Collington throw back the curtain on the consulting industry They dive deep into important case studies of consultants taking the reins with disastrous results such as the debacle of the roll out of HealthCare gov and the tragic failures of governments to respond adequately to the COVID 19 pandemic The result is an important and exhilarating intellectual journey into the modern economy s beating heart With peerless scholarship and a wealth of original research Mazzucato and Collington argue brilliantly for building a new system in which public and private sectors work innovatively for the common good
