Paper Tricorn Hats:

Paper Dreams Phyllis J. Burton, 2011-12-01 *Paper Dreams* is an unusual read which plays with the reader's emotions. It covers family sorrow, obsessions, inheritance, greed, dreams, nightmares, and attempted murder. But above all, it is a story of people's lives, their loves, and how they eventually overcome adversity. *The American Revolution for Kids* Janis Herbert, 2002-09-01 Heroes, traitors, and great thinkers come to life in this activity book, and the concepts of freedom and democracy are celebrated in true accounts of the distinguished officers, wise delegates, rugged riflemen, and hardworking farm wives and children who created the new nation. This collection tells the story of the Revolution from the hated Stamp Act and the Boston Tea Party to the British surrender at Yorktown and the creation of the United States Constitution. All American students are required to study the Revolution and the Constitution, and these 21 activities make it fun and memorable. Kids create a fringed hunting shirt and a tricorn hat and reenact the Battle of Cowpens. They will learn how to make their voices heard in I Protest and how Congress works in There Ought to Be a Law. A final selection including the Declaration of Independence, a glossary, biographies, and pertinent Web sites makes this book a valuable resource for both students and teachers. **Fun for Kids III** Marion F. Gallivan, 2002 An index to children's craft books published since 1991. The Founding Fathers, American Flag, 13 Stars and 13 stripes, How the Colonies Formed, It's Not Easy to Break Away from the Mother Country, Meeting the Native Americans, Hands on Activities, Reproducible Activities, Glossary, Fascinating Facts, Timeline, And Lots More. The compelling story of America's original Thirteen Colonies is a meaningful one for all students who seek to understand how what we learn from History can help us in our own quests. Deep Travel David K. Leff, 2009-04 In the hot summer of 2004 David Leff floated away from the routine of daily life just as Henry David Thoreau and his brother had done in their own small boat in 1839 Fortified with Thoreau's observations as revealed in *A Week on the Concord and Merrimack Rivers* Leff brought his own concept of mindful deep travel to these same New England waterways His first person narrative uses his ecological way of looking of going deep rather than far to show that our outward journeys are inseparable from our inward ones How we see depends on where we are in our lives and with whom we travel Leff chose his companions wisely In consecutive journeys his neighbor and friend Alan a veteran city planner his son Josh an energetic eleven year old and his sweetheart Pamela a compassionate professional caregiver added their perspectives to Leff's own experiences as a government official in natural resources policy Not so much sight seeing as sight seeking together they explored a geography of the imagination as well as the rich natural and human histories of the rivers and their communities The heightened awareness of deep travel demands that we immerse ourselves fully in places and realize that they exist in time as well as space Its mindfulness enriches the experience and makes the voyager worthy of the journey Leff's intriguing contemplative deep travel along these historic rivers presents a methodology for exploration that will enrich any trip
