Photographie Medias Et Capitalisme:

Photographie, médias et capitalisme, 2009-10-01 A partir des réflexions de Deleuze et Guattari dans *Capitalisme et schizophrénie* les contributions de cet ouvrage s'interrogent sur les relations entre photographie et médias et capitalisme et photographie et capitalisme Mais surtout elles créent un champ de pensée et d'expérimentation autour de ce triangle conceptuel et relèvent plus largement sur l'imaginaire et sur l'art

Crise dans la représentation François Soulages, 2019-10-01 Le problème de la présence oblige mettre en œuvre la représentation comme si pour l'être humain la présence ne pouvait se suffire elle-même et devait s'accompagner de représentation et de langage Mais la représentation fait elle-même problème au point qu'il y a crise dans la représentation En effet les hommes hésitent entre croyance et doute face aux représentations qu'elles soient celles des médias de la photographie de l'économie ou de la politique c'est une crise généralisée de et dans la représentation

Existence et photographie François Soulages, Raphaël Yung Mariano, 2022-06-20 Comment et pourquoi une image fixe pourrait-elle avoir un lien essentiel avec l'existence une existence notre existence Le croire est-ce une banalité pire une naïveté et une illusion ou bien au contraire le fondement de toute pensée de la photographie voire de toute esthétique de la photographie S'il est possible quoique difficile de parler de l'existence il semble qu'il soit périlleux de parler de la photographie Alors selon quelles conditions et quelles modalités est-il légitime de mettre en œuvre une problématique intitulée Existence l'interrogation philosophique sur l'existence aussi bien sûr Ainsi le concept d'existence clarifiera autrement la réflexion sur la photographie et la photographie enrichira le concept d'existence Tel est le double enjeu de ce livre

L'extériorité à l'épreuve de l'autre Gilles Picarel, 2022-01-18 Pour un artiste ou un chercheur s'emparer du problème de l'extériorité revient se confronter une relation aporétique au monde aux choses aux êtres et son œuvre Poser la question de l'extériorité est irrductible toute tentative de définition et contradictoire avec le désir d'en délimiter les contours car ces tentatives dévitaliseraient l'identité même d'extériorité Entrer dans le sillage de l'extériorité ou se lancer sur sa piste c'est alors accepter la preuve de l'autre Cette expérience introduit le regard du monde et des hommes une possibilité d'ouverture l'imprévisible l'innommable et l'inconnaissable Elle expose la temporalité l'accueil de l'inattendu et de la surprise Cette preuve de l'autre ne réduit pas l'autre moi-même l'anonymat elle lie le chercheur l'artiste et tout homme un autre dont il est impossible d'être quitte

Le corps hors norme dans la photographie contemporaine Zoé Forget, 2015-10-01 La figure du corps hors norme est l'héritière contemporaine des monstres freaks et autres curiosités humaines qui furent au fil des siècles monstruées la foule et auscultées par la Science A l'instar de son sujet la représentation photographique contemporaine se caractérise face à l'iconographie produite à partir de la seconde partie du XIXe siècle par des gestes de continuité et de rupture de répétition et de variation de disparition et de création c'est cet enjeu esthétique qui permet d'appréhender pleinement l'espace critique et flexible qu'elle occupe aujourd'hui aux côtés du corps hors norme

Photographie et schizophrénie Caroline Blanvillain, 2015-02-01 Il ne peut s'agir de coïncidence Le vocabulaire propre à la photographie est celui employé en

psychanalyse en particulier pour la psychose schizophrénique appareil cran trouble r el etc Quels sont les liens entre photographie et psychose schizophrénique Quels sont les enjeux d'un tel parallèle Quelles conséquences pour la photographie le sujet et son rapport au monde L'ouvrage mène une enquête sur la photographie partir de sa mise en relation avec la psychose schizophrénique **Temps & photographie** François Soulages, 2019-02-28 A-t-on déjà vu le temps Jamais ni de visu ni en photographie Et pourtant bien des photographes voquent le temps Alors quelle serait la manière spécifique qu'aurait la photographie de travailler le temps Cet ouvrage étudie pourquoi et comment les photographies explorent le temps mieux les temps la fois le passé le présent et l'avenir Il prend appui que l'œuvre de l'artiste contemporain Bernard Koest car plus qu'une autre son œuvre oblige repenser les rapports complexes entre temps photographie L'homme disparu François Soulages, Silvia Solas, 2016-06-15 Pourquoi et comment la politique peut-elle faire disparaître les hommes les corps la mémoire des corps et des hommes Est-ce lié au développement de la photographie qui permet de manipuler l'image et donc la réalité Photographie et corps politiques poursuit la réflexion entamée dans Esthétique de la photographie en se demandant ce qu'il reste après le travail de disparition opérée par certaines politiques En Argentine au Chili en Irak Madagascar et ailleurs

L'ère d'Andy Warhol Sang Yong Sim, 2023-02-02 Ce livre est doublement important il permet de mieux connaître Andy Warhol mais aussi de réfléchir sur les rapports entre art et soft power Il offre un véritable travail d'historien de l'art sur Warhol et le pop art et décrit comment les images que la publicité du marché de l'art et du soft power a produites pour faire vendre et connaître Warhol mais surtout pour imposer le produit Warhol au détriment des artistes européens En effet ce soft power était une manière douce d'imposer la domination américaine sur le monde et sur l'Europe en particulier et de développer l'économie et le commerce transatlantiques Le pop art et la marque Andy Warhol ont développé la fonction idéologique et donc pratique sociale de l'art afin que le nouvel empire crisse comme on dit en informatique les vieux pays d'un vieux continent et les transforme en lieux de la vacance du tourisme musical et de la dépense financière pour classes moyennes et plus Ce livre est un livre de contre-histoire Photographie & mobilité Hortense Soichet, 2013-07-01 Aujourd'hui avec la mise en mobilité de la société des photographes s'interrogent sur le fait de faire œuvre en déplacement Alliant mobilité du corps ou modes de transport et images ils questionnent la perception visuelle et les sensations quimanent d'une expérience d'ambulatoire Comment la photographie médiatique de la fixation est-elle en mesure de rendre compte d'un processus mobile En quoi ces pratiques artistiques sont-elles révélatrices d'une époque qui semble régie par la mobilité

Images serviles, images critiques François Soulages, 2017-11-01 Ce livre conclut une série de dix ouvrages publiés sur la problématique Photographie corps politiques Il nous interroge sur les représentations photographiques idéologiques ou artistiques des corps politiques en questionnant les potentialités des images servile critique ou création Et ce partir d'images policières psychiatriques et artistiques Les enjeux sont en effet certes politiques et moraux mais aussi existentiels et esthétiques Deux artistes Bernard Koest et Bruno Zorzal interviennent dans ce livre pour présenter des photographies La ville & les arts François

Soulages,2011-10-01 Qu'en est-il des rapports complexes et riches entre la ville et les arts alors que plus de la moitié de l'humanité vit aujourd'hui en ville Problèmes fondamentaux permettant de mieux comprendre la ville mais aussi de mieux entendre les arts l'histoire de l'art et l'esthétique Problèmes aussi parfois politiques et économiques L'auteur mène cette enquête et ces interrogations à partir de l'œuvre de Philippe Cardinali philosophe et historien de l'art **Les frontières des langues**

François Soulages,2017-10-15 Chaque langue constitue un monde linguistique certes mais aussi matériel et spirituel conceptuel et symbolique Elle est ce qui permet de s'interroger sur le monde et sur soi de se représenter un peuple et sa culture Quelles sont donc les frontières des langues face à la globalisation Ce livre interroge les enjeux du problème global et local traduction et interprétation et les créations qui le nourrissent mot et littérature image et art 9 min 29 s. *La mort filmée de George Floyd* Dominique Chateau,2022-10-05 George Floyd est descendu dans une rue de Minneapolis le 25 mai 2020 maintenu au sol et étranglé par le genou d'un policier Au lieu du clair visuel de l'assassinat de JFK 26 secondes en super huit que Pasolini leva au rang de théorie du plan séquence les 9 min 29 s de l'assassinat de George Floyd captés par le smartphone de Darnella Frazier offrent nos sens dans la dure audiovisuelle une scandaleuse agonie filmée live Mobile et connecté le smartphone crée des conditions nouvelles qui changent notre rapport sensible au film et au film Il semble qu'on puisse ainsi filmer la sensation Dans cet ouvrage la motion suscite par la vidéo de Darnella Frazier se prolonge dans un questionnement sur la possibilité de graver la sensation dans le film et de la transmettre au spectateur Cette réflexion concerne le pouvoir parfois sensoriel et intermédiaire du cinéma et de la vidéo **Quand l'artiste détourne l'objet** Marie Luce Liberge,2022-10-27

Cet ouvrage se concentre sur le rire laborieux dans l'objet voquant la violence Il s'agit ici d'observer des œuvres contemporaines qui trouvent astucieusement des procédés de monstration singuliers l'objet tant ici le moteur du dispositif esthétique du rire En effet l'objet a révolutionné la façon de faire de l'art et d'esthétiser le rire Il est ici question de faire merger la force d'impact des objets dans un rapport au rire qui voque la violence de façon distanciée et intelligible Il s'agit de se focaliser sur des objets qui appellent une certaine manipulation du spectateur et qui invitent aux jeux des interprétations la complicité la relation La réflexion de Marie Luce Liberge s'intéresse tout autant la parodie qu'à la satire l'ironie la parodie l'humour noir

Esthétique de l'art médical Michel Godefroy,2021-12-16 La médecine dont la définition se situait autrefois dans l'espace limité entre la souffrance et le soin se voit désormais élargie ailleurs par la progression scientifique inéluctable des techniques et des méthodes d'exploration impliquant un savoir objectif et ses applications informatisées ces progrès considérables des techniques médicales il convient d'associer aux aspects descriptifs donc visibles de la maladie l'invisible de la relation empathique de ses deux acteurs le malade et le médecin L'acte médical peut désormais être considéré comme une activité créatrice impliquant la sensibilité et l'imagination donc aussi l'esthétique prise au sens tymologique véritable complément de la connaissance scientifique dans la définition de l'art médical **Egonline** François Soulages,Agathe Lichtensztejn,2017-10-01 Le selfie exprime la fascination culturelle et culturelle contemporaine pour l'exercice de l'auto-représentation il se donne

comme tant non seulement un moyen d'expression de soi mais également une forme créative de self branding marque Il est ce qui questionne l'identité globale dans notre monde globalisé auquel les crans sont désormais totalement intégrés Serait-il donc une preuve d'authenticité d'une identité réelle

Intelligence artificielle : risque ou opportunité ? Stéphane Kalla, Berna Oruc, 2022-10-04 L'intelligence artificielle vise comprendre comment fonctionne la cognition humaine et la reproduire Elle désigne des technologies qui reposent sur l'utilisation d'algorithmes Ces technologies qui ont des déclinaisons multiples se caractérisent souvent par leur capacité prédictive Il s'agit de doter les machines d'une intelligence et d'une autonomie propres Outre les impacts sur la vie quotidienne elles peuvent aller jusqu'à modifier les frontières entre l'homme et la machine ce qui n'est évidemment pas sans conséquence Cet ouvrage consacré au colloque du même nom organisé à Istanbul en 2019 par Galatasaray Lisesi et l'Université de Galatasaray avec l'ambassade de France en Turquie se propose de traiter dans une perspective transdisciplinaire la problématique suivante l'intelligence artificielle est-elle une réponse des problématiques sociales environnementales et humaines ou représente-t-elle une menace pour l'humanité et le libre arbitre des personnes

Food, Nutrition and the Media Valentina Marinescu, 2020-08-03 Placed at the crossroads of diverse disciplines medical sciences information and communication science sociology of food agricultural sciences this book focuses on media food and nutrition Contributors to this volume come from different countries including the United Kingdom Germany Mexico and Romania and consider comparatively their native cultures The book answers several questions How are food and nutrition made visible and publicized What is the role of media in relation to food and nutrition What are the strategies of discourses surrounding food and nutrition within new public spaces

Now Vincent Lavoie, 2003-01-01 While the crisis that took place in photojournalism during the 1960s brought about a significant shift in the practices discourses and institutional structures of press photography it also affected the practices of artists specifically with regard to work devoted to revitalizing the depiction of events The art world attempted to revitalize the historical genre by undertaking its critical rereading in the spirit of restoring a tradition diminished by the mass media The problem may be expressed in these terms How can history be depicted bearing in mind that the media mainly photojournalism and the electronic press have claimed a monopoly of the genre unto themselves At issue is the sizeable problem of mass media omnipotence as an obligatory referential universe for historiographical artistic practices Today it seems impossible to depict the event in any way other than by accentuating or eschewing the formal attributes rhetorical artifices and ideological precepts of the mass media These approaches to addressing historical moments have been examined in this article both because they epitomize contemporary historical writing and for the most part they constitute critical responses to stereotyped depictions of events Above all they represent a paradigm shift the mass media's prerogatives for depicting historical moments has shifted towards the field of art Contemporary depictions of catastrophe crimes sensationalist news items terrorist attacks humanitarian disasters genocides common themes in many of the artistic projects represented in the 8th edition of the *Mois de la Photo* à Montréal have been

especially striking in this respect For of all contemporary events catastrophes are the most likely to be spontaneously propelled to the top of the news roster and the most susceptible to the various inflections of contemporary art photography
