Essential PHP fast Simon Stobart, 2012-12-06 How to create dynamic web environments using the PHP language and the MySQL database If you are familiar with the syntax for C C and Java then PHP will seem very familiar Once you have got up to speed with this HTML embedded scripting language you will soon be creating dynamic

HTML database enabled web pages quickly and easily This quick and practical introduction explains how PHP works and what a dynamic web page is the software development environment the syntax and features of the language how PHP can be integrated with MySQL databases dynamic database applications Clearly written this book provides you with all the essential information you need to create your own dynamic web environments using PHP Additional material is available from the Essential series web site <http://www.essentialseries.com> PHP Solutions David Powers,2007-04-30 You want to make your websites more dynamic by adding a feedback form creating a private area where members can upload images that are automatically resized or perhaps storing all your content in a database The problem is you're not a programmer and the thought of writing code sends a chill up your spine Or maybe you've dabbled a bit in PHP and MySQL but you can't get past baby steps If this describes you then you've just found the right book PHP and the MySQL database are deservedly the most popular combination for creating dynamic websites They're free easy to use and provided by many web hosting companies in their standard packages Unfortunately most PHP books either expect you to be an expert already or force you to go through endless exercises of little practical value In contrast this book gives you real value right away through a series of practical examples that you can incorporate directly into your sites optimizing performance and adding functionality such as file uploading email feedback forms image galleries content management systems and much more Each solution is created with not only functionality in mind but also visual design But this book doesn't just provide a collection of ready-made scripts each PHP solution builds on what's gone before teaching you the basics of PHP and database design quickly and painlessly By the end of the book you'll have the confidence to start writing your own scripts or if you prefer to leave that task to others to adapt existing scripts to your own requirements Right from the start you're shown how easy it is to protect your sites by adopting secure coding practices The book has been written with an eye on forward and backward compatibility recommending PHP 5 techniques but providing alternative solutions for servers still running PHP 4.3 All database examples demonstrate how to use the original MySQL extension MySQL Improved or the PHP Data Objects PDO introduced in PHP 5.1 letting you choose the most suitable option for your setup Market Domination for Podcasting Seth Greene,2016-12-20 Voted one of the best podcasting books of all time written by marketing marvel and co-host of the SharkPreneur podcast with Shark Tank's Kevin Harrington BookAuthority Market Domination for Podcasting shares the secrets of twenty-three of the top podcasters and marketing minds in the world today Business owners can use Seth Greene's unique podcasting model to generate twenty new referral partners promoting their business in just twenty minutes a week Interview subjects include Mark Asquith Chris Christenson Luis Congdon Andrea Corelli Karl Krummenacher Michael Licata Gary Occhino Nik Parks Rebecca Poynton and others Seth explores why podcast users make for an interesting advertising segment and how small businesses can take advantage of this underappreciated marketing tool Home Business
