**Around the Globe** Miroslav Vaněk, 2013-08-01 Around the Globe Rethinking Oral History with Its Protagonists presents interviews with thirteen prominent scholars focusing on oral history In these interviews Professor Miroslav Van k captures not only segments of life stories of these personalities how and why they began their pursuit of oral history but also their views of the status and importance of oral history within social sciences The interviews reflect on how they cope with the frequently asked question concerning the subjective character of oral history whether they consider oral history to be a discipline or method and whether such classification is even relevant Personages such as David King Dunaway Ronald Grele Elizabeth Millwood Alexander von Plato Alessandro Portelli Alistair Thomson Paul Thompson and others reflect on the future of oral history at the time of the fast developing technologies as well as on the limits of interpretation of oral history interviews This book is intended for all readers interested in social sciences      **Economics** Gary E. *Democracy's Discontent and Civic Learning* Charles S. White, 2018-09-01 Around the globe democracy is under assault For a dozen years global freedom has followed a downward slope according to Freedom House Once viewed as the world s model of freedom the United States has slipped in world ratings of democracy For a rising portion of the world s population faith in democracy is flagging At the same time a wave of nationalism and xenophobia is rising in the West questioning democracy s ability to meet the needs of its citizens The contributors to this volume examine democracy s discontent from a variety of perspectives What forces have produced the extreme partisanship and polarization roiling America s civic life and politics How has today s populist movement challenged democratic norms and institutions What role has social media played in democracy s discontent and its defense How do we overcome persistent racism in the face of emboldened White supremacist and anti immigrant agitation Across the pages of this book teachers teacher educators and education policy makers will recognize a common theme in responding to democracy s discontent the need to rebuild the nation s civic infrastructure Research on best practices in civic learning and engagement serve as a guide to transforming how we prepare citizens for democratic deliberation and civic action Creative and effective teaching materials and approaches await only the will to invest the needed time and support Repairing our civic infrastructure will help to restore confidence in our civic

capabilities and trust in our ability to work together for the public good Without a serious recommitment to the civic mission of schools the nation will be ill prepared to defend against those within and beyond our borders who are intent on undermining democracy      **Advice and Support: The Final Years, 1965-1973 (Paperback format only)** Ronald H.

Spector,1983      Out of Turmoil Dean P. Vesperman,Anne Aydinian-Perry,Matthew T. Missias,Whitney G.

Blankenship,2023-01-01 It is not difficult to argue that the social sciences are in a period of transition Our day to day lives have been marked by uncertainty as our social lives have vacillated wildly between highs and lows tensions between fellow citizens have heightened along ideological fault lines and educators have been placed squarely at the center of public discourses about what and how we should be teaching By any measure we are living in a time where every moment seems to be rife with high stakes realities that must be navigated Ladson Billings 2020 called on educators to reimagine education and contest the notion of a return to normal In the current highly polarized context where we see multiple competing narratives rather than promoting a return to normal or business as usual approach we argue that educators must use the lessons of the last two years as well as draw on what we have learned from history and the social sciences By asking ourselves how we might interrogate and inform current social landscapes and the challenges that arise from them we have the opportunity to take leadership in fostering innovation building solidarity and re imagining the teaching and learning of history and the social sciences We recognize that humans live in multiple complex communities that include intersectional identities relationships with power agency and discourses and lived realities that are as unique as they are divergent Consequently the task of educators and the goal of this volume is to provide a clarion voice to a dynamic relational and undeniably human social world
