REPUBLICAN PARTY OF SARASOTA COUNTY
PRIMARY ELECTION | August 23, 2022

THE MOST IMPORTANT AUGUST VOTE

Local elections and School Board races are more important than they have ever been. Political leadership closest to the people is most responsive. And as we have painfully seen, if we have the wrong people, children and parents and all our rights are at risk.

CANDIDATES ENDORSED BY THE REPUBLICAN PARTY OF SARASOTA COUNTY VOTE FOR:

Senator Joe Gruters

Joe Gruters is a proven conservative and Sarasota County native facing a primary opponent who lives 120 miles from Sarasota County. Senator Gruters has been a leader in the Florida Senate to make Governor Ron DeSantis' agenda a reality. And as a Sarasota native, he knows the community intimately, unlike his absentee opponent.

School Board

Bridget Ziegler is a wife, mother and proven conservative on the School Board. She will continue to fight for parental rights and against a radical woke agenda.

Tim Enos is a long-time law-enforcement officer and retired schools police chief. He knows how to keep our kids safe and protect them from the radicals.

Robyn Marinelli is a long-time educator as a teacher, counselor and administrator and also knows the current anti-parent radicalism on the Board cannot continue.

Bluecoats and Tar Heels Mark L Bradley, 2009-01-30 Though the Civil War ended in April 1865 the conflict between Unionists and Confederates continued The bitterness and rancor resulting from the collapse of the Confederacy spurred an ongoing cycle of hostility and bloodshed that made the Reconstruction period a violent era of transition The violence was so pervasive that the federal government deployed units of the U S Army in North Carolina and other southern states to maintain law and order and protect blacks and Unionists Bluecoats and Tar Heels Soldiers and Civilians in Reconstruction North Carolina tells the story of the army s twelve year occupation of North Carolina a time of political instability and social unrest Author Mark Bradley details the complex interaction between the federal soldiers and the North Carolina civilians during this tumultuous period The federal troops

attempted an impossible juggling act protecting the social and political rights of the newly freed black North Carolinians while conciliating their former enemies the ex Confederates The officers sought to minimize violence and unrest during the lengthy transition from war to peace but they ultimately proved far more successful in promoting sectional reconciliation than in protecting the freedpeople Bradley s exhaustive study examines the military efforts to stabilize the region in the face of opposition from both ordinary citizens and dangerous outlaws such as the Regulators and the Ku Klux Klan By 1872 the widespread organized violence that had plagued North Carolina since the close of the war had ceased enabling the bluecoats and the ex Confederates to participate in public rituals and social events that served as symbols of sectional reconciliation This rapprochement has been largely forgotten lost amidst the postbellum barrage of Lost Cause rhetoric causing many historians to believe that the process of national reunion did not begin until after Reconstruction Rectifying this misconception Bluecoats and Tar Heels illuminates the U S Army s significant role in an understudied aspect of Civil War reconciliation

Race and Education in North Carolina John E. Batchelor,2015-12-16 The separation of white and black schools remained largely unquestioned and unchallenged in North Carolina for the first half of the twentieth century yet by the end of the 1970s the Tar Heel State operated the most thoroughly desegregated school system in the nation In Race and Education in North Carolina John E

Batchelor a former North Carolina school superintendent offers a robust analysis of this sea change and the initiatives that comprised the gradual and often reluctant desegregation of the state's public schools. In a state known for relative racial moderation, North Carolina government officials generally steered clear of fiery rhetorical rejections of *Brown v Board of Education*. In contrast to the position of leaders in most other parts of the South, instead they played for time, staving off influential legislators who wanted to close public schools and provide vouchers to support segregated private schools, instituting policies that would admit a few black students into white schools and continuing to sanction segregation throughout most of the public education system. Litigation primarily initiated by the NAACP and the Civil Rights Act of 1964 created stronger mandates for progress and forced government officials to accelerate the pace of desegregation. Batchelor sheds light on the way local school districts pursued this goal while community leaders, school board members, administrators, and teachers struggled to balance new policy demands with deeply entrenched racial prejudice and widespread support for continued segregation. Drawing from case law, newspapers, interviews with policy makers, civil rights leaders, and attorneys involved in school desegregation, as well as previously unused archival material, *Race and Education in North Carolina* presents a richly textured history of the legal and political factors that informed, obstructed, and finally cleared the way for desegregation in the North Carolina public education system. *Confederate Political Economy* Michael Brem

Bonner, 2016-05-11 In *Confederate Political Economy*, Michael Bonner suggests that the Confederate nation was an expedient corporatist state, a society that required all sectors of the economy to work for the national interest as defined by a partnership of industrial leaders and a dominant government. As Bonner shows, the characteristics of the Confederate States' political economy included modern organizational methods that mirrored the economic landscape of other late nineteenth century and early twentieth century corporatist governments. Southern leaders, Bonner argues, were slave-owning agricultural capitalists who sought a counterrevolution against northern liberal capitalism. During secession and as the war progressed, they built and reinforced Confederate nationalism through specific centralized government policies. Bolstered by the Confederate constitution, these policies evolved into a political culture that allowed for immense executive powers, facilitated an anti-party ideology, and subordinated individual rights. In addition, the South's lack of industrial capacity forced the Confederacy to pursue a curious manufacturing policy that used both private companies and national ownership to produce munitions. This symbiotic relationship was just one component of the Confederacy's expedient corporatist state; other wartime policies like conscription, the domestic passport system, and management of southern railroads also exhibited unmistakable corporatist characteristics. Bonner's probing research and new comparative analysis expand our understanding of the complex organization and relationships in Confederate political and economic culture during the Civil War. *Going Dirty* David Mark, 2009-04-16 *Going Dirty* is a history of negative campaigning in American politics and an examination of how candidates and political consultants have employed this often controversial technique. The book includes case studies on

notable races throughout the television era in which new negative campaign strategies were introduced or existing tactics were refined and amplified upon. Strategies have included labeling opponents from non traditional political backgrounds as dumb or lightweight an approach that got upended when a veteran actor and rookie candidate named Ronald Reagan won the California governorship in 1966 setting him on a path to the White House. The negative tone of campaigns has also been ratcheted up dramatically since the terrorist attacks of September 11 2001. Campaign commercials now routinely run pictures of international villains and suggest sometimes overtly at other times more subtly that political opponents are less than resolute in prosecuting the war on terror. The book also outlines a series of races in which negative campaigning has backfired because the charges were not credible or the candidate on the attack did not understand the political sentiments of the local electorate they were trying to persuade. The effect of newer technologies on negative campaigning is also examined including blogs and Web video in addition to tried and true methods like direct mail. *Renomination of Donald J. Devine*
