International Perspectives and Empirical Findings on Child Participation Tali Gal, Benedetta Duramy, 2015-03-20 The 1989 UN Convention on the Rights of the Child has inspired advocates and policy makers across the globe injecting children s rights terminology into various public and private arenas Children s right to participate in decision making processes affecting their lives is the acme of the Convention and its central contribution to the children s rights discourse At the same time the participation right presents enormous challenges in its implementation Laws regulations and mechanisms addressing children s right to participate in decision making processes affecting their lives have been established in many jurisdictions across the globe Yet these worldwide developments have only rarely been accompanied with empirical investigations The effectiveness of various policies in achieving meaningful participation for children of different ages cultures and circumstances have remained largely unproven empirically Therefore with the growing awareness of the importance of evidence based policies it becomes clear that without empirical investigations on the implementation of children s right to participation it is difficult to promote their effective inclusion in decision making This book provides a much needed first broad portrayal of how child participation is implemented in practice today Bringing together 19 chapters written by prominent authors from the United States Canada the United Kingdom Ireland New Zealand Australia and Israel the book includes descriptions of programs that engage children and youth in decision making processes as well as insightful findings regarding what children their families and professionals think about these programs Beyond their contribution to the empirical evidence on ways children engage in decision making processes the volume s chapters contribute to the theoretical development of the meaning of participation citizenship inclusiveness and relational rights in regards to children and youth There is no matching to the book s scope both in terms of its breadth of subjects and the diversity of jurisdictions it covers The book s chapters include experiences of child participation in special education child protection juvenile justice restorative justice family disputes research and policy making
