Coerced Erin Hatton, 2020-03-24 What do prisoner laborers graduate students welfare workers and college athletes have in common According to sociologist Erin Hatton they are all part of a growing workforce of coerced laborers *Coerced* explores this world of coerced labor through an unexpected and compelling comparison of these four groups of workers for whom a different definition of employment reigns supreme one where workplace protections do not apply and employers wield expansive punitive power

far beyond the ability to hire and fire Because such arrangements are common across the economy Hatton argues that coercion as well as precarity is a defining feature of work in America today Theoretically forceful yet vivid and gripping to read *Coerced* compels the reader to reevaluate contemporary dynamics of work pushing beyond concepts like career and gig work Through this bold analysis Hatton offers a trenchant window into this world of work from the perspective of those who toil within it and who are developing the tools needed to push back against it *Athletic Director's Desk Reference* Donna A. Lopiano, Connee Zotos, 2022-02-15 This applied reference includes management tips planning tools and policies for athletic administrators Designed primarily as a reference for intercollegiate athletic program administrators high school athletic administrators courses in athletic administrations and libraries ***The Business of Sports*** Mark Conrad, 2017-02-17 The *Business of Sports* provides a comprehensive foundation of the economic organizational legal and political components of the sports industry Geared for journalism communication and business students but also an excellent resource for those working in sports this text introduces readers to the ever increasing complexity of an industry that is in constant flux Now in its third edition the volume continues to offer a wealth of statistics and case studies up to date with the newest developments in sports business and focused on cutting edge issues and topics including the many changes in international sports and the role of analytics in decision making and tax rules that have a major effect on athletes and teams *Unwinding Madness* Gerald S. Gurney, Donna A. Lopiano, Andrew Zimbalist, 2016-12-13 A critical look at the tension between the larger role of the university and the commercialization of college sports *Unwinding Madness* is the most comprehensive examination to date of how the NCAA has lost its way in the governance of intercollegiate athletics and why it is incapable of achieving reform and must be replaced The NCAA has placed commercial success above its responsibilities to protect the academic primacy health and well being of college athletes and fallen into an educational ethical and economic crisis As long as intercollegiate athletics reside in the higher education environment these programs must be academically compatible with their larger institutions subordinate to their educational mission and defensible from a not for profit organizational standpoint The issue has never been a matter of whether intercollegiate athletics belongs in higher education as an extracurricular offering Rather the perennial challenge has been how these programs have been governed and conducted The authors propose detailed solutions starting with the creation of a new national governance organization to replace the NCAA At the college level these proposals will not diminish the revenue production capacity of sports programs but will restore academic integrity to the enterprise provide fairer treatment of college athletes with better health protections and restore the rights and freedoms of athletes which have been taken away by a professionalized athletics mentality that controls the cost of its athlete labor force and overpays coaches and athletic directors *Unwinding Madness* recognizes that there is no easy fix to the problems now facing college athletics But the book does offer common sense doable solutions that respect the rights of athletes protects their health and well being while delivering on the promise of a bona fide educational degree program

Schools for Scandal Sheldon Anderson, 2024-05-22 For well over a century big time college sports has functioned as a business enterprise, one that serves to undermine the mission of institutions of higher education. This book chronicles the long and tortured history of the NCAA's attempt to maintain the myth of amateurism and the student athlete along with the attendant fiction that the player's academic achievement is the top priority of Division I athletic programs. It is an indictment of the current system making the case that big time college sports cannot continue its connection to universities without undermining the mission of higher education. It concludes with bold proposals to separate big time college sports from the university, transforming them into on-campus business operations. **COVID-19 and Higher Education in the Global**
