Eva Palmer Sikelianos Artemis Leontis, 2019-03-05 The first biography of a visionary twentieth century American performer who devoted her life to the revival of ancient Greek culture This is the first biography to tell the fascinating story of Eva Palmer Sikelianos 1874 1952 an American actor director composer and weaver best known for reviving the Delphic Festivals Yet as Artemis Leontis reveals Palmer s most spectacular performance was her daily revival of ancient Greek life For almost half a century dressed in handmade Greek tunics and sandals she sought to make modern life freer and more beautiful through a creative engagement with the ancients Along the way she crossed paths with other seminal modern artists such as Natalie Clifford Barney Ren e Vivien Isadora Duncan Susan Glaspell George Cram Cook Richard Strauss Dimitri Mitropoulos Nikos Kazantzakis George Seferis Henry Miller Paul Robeson and Ted Shawn Brilliant and gorgeous with floor length auburn hair Palmer was a wealthy New York debutante who studied Greek at Bryn Mawr College before turning her back on conventional society to live a lesbian life in Paris She later followed Raymond Duncan brother of Isadora and his

wife to Greece and married the Greek poet Angelos Sikelianos in 1907 With single minded purpose Palmer re created ancient art forms staging Greek tragedy with her own choreography costumes and even music Having exhausted her inheritance she returned to the United States in 1933 was blacklisted for criticizing American imperialism during the Cold War and was barred from returning to Greece until just before her death Drawing on hundreds of newly discovered letters and featuring many previously unpublished photographs this biography vividly re creates the unforgettable story of a remarkable nonconformist whom one contemporary described as the only ancient Greek I ever knew Paranoid Publics Zahid R. Chaudhary,2025-11-04 Facts and established truths are regularly denied in contemporary life This situation has brought paranoid politics into the mainstream from conspiracy theories like QAnon to sex panics and assaults on public health measures to election denialism and the rise of vigilante militias Paranoid Publics analyzes these phenomena as psychosocial realities enmeshed with emerging ways of determining truth Today s paranoia cannot simply be blamed on the rise of social media or the recent surge of populist anger Rather as Chaudhary shows both are fueled by preexisting psychosocial processes Applying psychodynamics to analyze truth and politics Paranoid Publics foregrounds unconscious demands wishes and compulsions Against the hope that progressive economic policies might dispel widespread disorientation and disillusionment Chaudhary reveals how psychic realities mark politics as deeply as do self interest and class dynamics Chaudhary takes up and reinvents psychoanalytic concepts to analyze how for example the personal liberty exercised through vaccine exemptions is paradoxically grounded in submission to the authority of the family and the state Such politically consequential attitudes concerning truth emerge from a social order that they proceed to challenge Making a case for psychosocial understandings of our current historical juncture Paranoid Publics radically expands our notion of the political *Anime and Manga Recognized Articles* , **Industrial World** ,1907 *The Other Sylvia Plath* Tracy Brain,2014-07-22 Despite being widely studied on both undergraduate and postgraduate courses the writing of Sylvia Plath has been relatively neglected in relation to the attention given to her life and what drove her to suicide Tracy Brain aims to remedy this by introducing completely new approaches to Plath s writing taking the studies away from the familiar concentration to reveal that Plath as a writer was concerned with a much wider range of important cultural and political topics Unlike most of the existing literary criticism it shifts the focus away from biographical readings and encompasses the full range of Plath s poetry prose journals and letters using a variety of critical methods Year Book Carnegie Endowment for International Peace,1924 **Yearbook** Carnegie Endowment for International Peace,1924 **Annual Report** Carnegie Endowment for International Peace,1924 **Guattari Beyond Deleuze** Carlos A. Segovia,2024-11-08 This book argues that by virtue of his original and ongoing contribution to ontology and modal philosophy from the texts gathered in *Psychanalysis and Transversality* to the unpublished manuscript notes for *What Is Philosophy* Guattari is to be acknowledged a philosopher in his own right independently from Deleuze Furthermore it looks back and forth beyond *Anti Oedipus* and contends that

Guattari's major writings gradually supplement deterritorialization with determinability. Accordingly, it offers a new interpretation of the nuanced development of Guattari's philosophical thought which it proposes to define as constructivist rather than post-structuralist. Additionally, it explores the innovative responses that Guattari's philosophy supplies to various contemporary philosophical debates like those on accelerationism, indeterminacy, compossibility, and worlding. Finally, it examines the differences that upon a careful cross-reading of their earliest texts, including *The Anti-Oedipus Papers* and *Difference and Repetition*, must be drawn between Guattari's constructivism and Deleuze's sacrificial philosophy.

Travel, Modernism and Modernity Robert Burden, 2016-03-09 Focusing on the significance of travel in Joseph Conrad, E. M. Forster, D. H. Lawrence, Henry James, and Edith Wharton, Robert Burden shows how travel enabled a new consciousness of mobility and borders during the modernist period. For these authors, Burden suggests, travel becomes a narrative paradigm and dominant trope by which they explore questions of identity and otherness related to deep-seated concerns with the crisis of national cultural identity. He pays particular attention to the important distinction between travel and tourism at the same time that he attends to the slippage between seeing and sightseeing, between the local character and the stereotype, between art and kitsch, and between older and newer ways of storytelling in the representational crisis of modernism. Burden argues that the greater awareness of cultural difference that characterizes both the travel writing and fiction of these expatriate writers became a defining feature of literary modernism, resulting in a consciousness of cultural difference that challenged the ethnographic project of empire.

Fragile Juggernaut** Harry Cleaver, 2024-11-18 Whether loving or hating it many visualize capitalism as an unstoppable juggernaut For those of us who would defeat it we must identify its weaknesses Fortunately Marx and Engels writings on crisis reveal them They show how its endless imposition of exploitative and alienating work creates such antagonistic conflicts everywhere as to make it ultimately a far more fragile monster than it first appears Each of its efforts to shape social relationships subordinating them to the work of commodity production and its control over society has been and can be thrown into crisis by those of us resisting its way of life and seeking to create more appealing alternatives
