meat and public health **Connecting the Nation** Paul Ashton, Tracy Ireland, Jaya Keaney, Alison Wain, Mitchell Whitelaw, 2017-01-01 Aviation has played an important part in shaping Australia's culture and history through the course of the twentieth century. Australia embraced aviation from its earliest days, eagerly responding to its potential to cover a challenging country, to bring far-flung communities closer and to provide services that could not be delivered any other way. Add the romance of pioneer heroes, the vital role of aviation in wartime and the capacity to deliver aid to people in need in Australia and beyond, and it is clear why aviation is at the heart of Australia's recent history. This book aims to set out the major themes that characterise Australia's aviation history for a broad audience and to provide a foundation for a broader discussion and for further research about how aviation transformed Australia. **Connecting the Nation** is a vital and timely introduction to the history of civil aviation in Australia as we prepare for the centenary of civil aviation services in 2020.

Social Citizenship in an Age of Welfare Regionalism Mark Simpson, 2022-06-30 This book presents a socio-legal examination of national and devolved level developments in social protection in the UK through the eyes of politicians and officials at the heart of this process. Since its inception in 1998, devolution has altered the character of the UK welfare state with dramatic change in the 10 years since 2010. A decade of austerity at national level has exposed diverging views in how governments in London, Edinburgh and Belfast view the social rights of citizenship. This political divide has implications for both social security law as the devolved countries begin to flex their muscles in this key area for citizens' economic welfare and the constitutional settlement. The book reflects on the impact of austerity, the referendum on Scottish independence and subsequent changes to the devolution settlement. Northern Ireland's hesitant moves away from parity with Westminster in social protection, withdrawal from the European Union, Brexit and the possible retreat from austerity during the COVID-19 pandemic. The social union may or may not be weakening its character; it is unquestionably changing, and the book lays bare the ideological and pragmatic considerations driving legal developments. TH Marshall's theory of citizenship provides the lens through which these processes are viewed while itself being reinterpreted in light of the national government's increasing delegation of responsibility for social rights whether to individuals, the voluntary sector or lower tiers of government. **The**
