author starts by classifying *Leaves of Grass* in American Literature and to put the title of the book in context with the usage of grass in the poem In the main part of the paper she is of course going to focus on the grass how it is used and what it means spanning themes of individuality knowability of nature and ecology also using theoretical approaches by Greg Garrard W J T Mitchell and Lawrence Buell Whitman tries to abstractly answer those questions for himself especially considering how frail Americans must've felt on the brink of the Civil War and over the controversy of the slave trade The theory brought forward is that the grass in the poem symbolizes humanity and life but also death and decay which is in one way a stark contrast But then again it also makes total sense after having read the whole poem because it all connects in the life span of a human being
