Academic Integrity Sarah Elaine Eaton,2023-12-04 The book brings together diverse views from around the world and provides a comprehensive overview of academic integrity and how to create the ethical academy At the same time the Handbook does not shy away from some of the vigorous debates in the field such as the causes of academic integrity breaches There has been an explosion of interest in academic integrity in the last 20 30 years New technologies that have made it easier than ever for students to cut and paste coupled with global media scandals of high profile researchers behaving badly have resulted in the perception that plagiarism is on the rise This in combination with the massification and commercialisation of higher education has resulted in a burgeoning interest in the importance of academic integrity how to safeguard it and how to address breaches appropriately What may have seemed like a relatively easy topic to address students copying sources without attribution has in fact turned out to be a complex interdisciplinary field of research requiring contributions from linguists psychologists social scientists anthropologists teaching and learning specialists mathematicians accountants medical doctors lawyers and philosophers to name just a few Because of this broad interest and input this handbook serves as the single authoritative reference work which brings together the vast growing interdisciplinary and at times contradictory body of literature For both established researchers practitioners and those new to the field this Handbook provides a one stop shop as well as a launching pad for new explorations and discussions

School Libraries in a Time of Change Kathleen W. Craver,2019-08-01 By becoming practical futurists school librarians can help their libraries not only to survive sweeping changes in education but to thrive This book shows how to spot technological trends and use them to your library s advantage During this time of rapid modernization of technology and educational reform this book is a must read for school librarians tasked with ensuring their libraries meet evolving standards This title provides the research and organizational techniques and skills they need to gain seats at the table of the three power committees technology curricula and strategic planning School librarians need to collect and publicize national and local school based evidence that shows the positive correlations between school librarians and student achievement Craver notes correlative sources and provides ideas to employ them to ensure that school librarians remain indispensable In addition acquiring technological skills and becoming expert at their application are paramount for librarians Even more important is the need for librarians to assume sole responsibility for designing and integrating information literacy and critical thinking skills throughout the curriculum Craver analyzes studies that show students inability to discern fact from fiction ads from news and information bias in electronic information sources and recommends six actions that school librarians take to ensure that they become active participants in their future rather than its victims **The Challenge of Independent Colleges**

Christopher C. Morphew, John M. Braxton, 2017-12 Weerts Cynthia A Wells Letha Zook William T Luckey President Lindsey Wilson College *Comprehensive analysis of disaster risk reduction and management system for agriculture in Serbia* Food and Agriculture Organization of the United Nations, 2024-01-22 This report aims to highlight the current strengths of the institutional disaster risk reduction DRR system for agriculture in Serbia as well as indicate existing gaps and capacity needs to further enhance it A comprehensive assessment is conducted which includes a general overview of the country s agriculture sector and outlines the most frequent natural hazards that are impacting the sector It is followed by an analysis of the existing legal policy and institutional structure and discusses various components of the system including the functioning of early warning systems assessments of disaster risks post disaster needs assessments including damages and losses assessments and the availability of agricultural insurance for farmers It concludes by providing recommendations for capacity building interventions to strengthen the current system to reduce the adverse impacts of natural hazards in particular floods landslides and droughts and climate change on agriculture in Serbia *Generation Jobless?* P. Vogel, 2015-03-05 Offering guidance on the opportunities and threats for future generations and featuring interviews with business leaders this book provides a constructive look at change It directs the youth to become job creators not job seekers and to approach the corporate and political worlds with an entrepreneurial mind set **Wall Street, Reforming the Unreformable** David E McClean, 2015-10-06 McClean argues that a collective move towards stewardship within the financial industry is necessary to restore ethical behaviour and public confidence Drawing on practical examples and offering new policy recommendations this unique philosophical study paints a picture of what a truly ethical trading culture of the future might look like **After Piketty** Heather Boushey, J. Bradford DeLong, Marshall Steinbaum, 2017-05-08 Are Thomas Piketty s analyses of inequality on target Where should researchers go from here in exploring the ideas he pushed to the forefront of global conversation In *After Piketty* a cast of economists and other social scientists tackle these questions in dialogue with Piketty in what is sure to be a much debated book in its own right *The Tyranny of Metrics* Jerry Z. Muller, 2019-04-30 How the obsession with quantifying human performance threatens business medicine education government and the quality of our lives Today organizations of all kinds are ruled by the belief that the path to success is quantifying human performance publicizing the results and dividing up the rewards based on the numbers But in our zeal to instill the evaluation process with scientific rigor we ve gone from measuring performance to fixating on measuring itself and this tyranny of metrics now threatens the quality of our organizations and lives In this brief accessible and powerful book Jerry Muller uncovers the damage metrics are causing and shows how we can begin to fix the problem Filled with examples from business medicine education government and other fields the book explains why paying for measured performance doesn t work why surgical scorecards may increase deaths and much more But Muller also shows that when used as a complement to judgment based on personal experience metrics can be beneficial and he includes an invaluable checklist of when and how to use them The

result is an essential corrective to a harmful trend that increasingly affects us all

Economic Competence and Financial Literacy of Young Adults Eveline Wuttke, Jürgen Seifried, Stephan Schumann, 2016-05-23 The authors take a detailed look at the economic competence and financial literacy of young adults especially of those who start an apprenticeship or who take up their studies at a university Economic competence and financial literacy are of special interest within this group because these young people are mostly for the first time in their lives responsible for autonomously managing their own financial affairs and deal with economic challenges

Credit Rating Governance Ahmed Naciri, 2015-01-30 Credit rating agencies play an essential role in the modern financial system and are relied on by creditors and investors on the market In the recent financial crisis their power and reliability were often questioned yet a simple rating downgrade could threaten to bankrupt a whole country This book examines the governance of credit rating agencies as expressed by their ability to fairly ethically and consistently assign higher rates to issuers having lesser default risks However factors such as the drive for increased revenue and market share the inadequate business model the inadequate methodology of assessing risk opacity and inadequate internal monitoring have all been identified as critical governance failures for credit agencies This book explores these issues and proposes some potential solutions and improvements This will be of interest to researchers and advanced students of corporate finance financial economics risk management investment management and banking
