respects reference service has become a matter of typing search terms into a library's online catalog or a web search engine and providing the patron with the results of the search. Calling for a re-intellectualization of reference librarianship, this book suggests another approach to providing quality reference service reading. The authors surveyed both academic reference librarians and public library reference personnel in the United States and Canada about their reading habits. From the 950 responses, the authors present findings about the extent to which librarians read newspapers, periodicals, fiction, and nonfiction and recount and analyze stories about how reading has made them better librarians. The authors also report that North American professors in the humanities and social sciences believe that the best reference librarians are those who have wide-ranging subject-based knowledge as opposed to the type of process-based functional knowledge that is increasingly dominating the curricula of many Library and Information Science programs.

Animals Out of Paper Rajiv Joseph, 2009 THE STORY When a world-renowned origami artist opens her studio to a teenage prodigy and his school teacher, she discovers that life and love can't be arranged neatly in this drama about finding the perfect fold.

Wise Sayings Walter W. Moore, 2012-01-03 The wise sayers say you are what you think. If that's so, then the body is merely the transporter for the mind. The body does not last, but the mind can. And that possibility could explain why so many of the ancient sayings apply to the today's world and possibly eternity. Take Aesop. He lived 620-560 BC. He said, "No act of kindness, no matter how small, is ever wasted." This is still a wise saying some 2600 years later. Back then, the memory system was mental. Today, we have computers and a digital memory system. But our present society is built on a procession of thinking from many years past. The situation is succinctly expressed by William Feather (1889-1981) who said, "The wisdom of the wise and the experience of the ages are preserved into perpetuity by a nation's proverbs, fables, folk sayings, and quotations."

Looking to the future we appear to be poised for some great things Preparing for the future Walt Disney 1901 1966 said Crowded classrooms and half day sessions are a tragic waste of our greatest national resource the minds of our children and Nicholas Zaharis 1921 said Education is expensive but ignorance is more expensive The intention of this manuscript is to educate inspire and amuse It is based on a thousand quotations by 400 astute individuals Their occupations and claim to fame are discussed briefly Many had multiple occupations Most were philosophers authors and writers The author visualizes the contents as a source of ideas for advertising programs for casual conversations and for meditative reading and thinking It is sort of a table top book that can be opened and read at random

Don't Be a Waster of

Sorrows Peter C. Wilcox,2015-03-26 The well known Austrian poet and spiritual writer Rainer Maria Rilke encouraged his young friend not to be a waster of sorrows but to use them in a positive way as a means to help him grow in holiness And isn't this the challenge for all of us Everyone has sorrows in life The important question is what can we do with them so that we don't waste them Whether our sorrows are personal or communal how can we share our mutual vulnerability so that we can connect with others in a way that leads to growth For over thirty years as a psychotherapist and spiritual director Peter C Wilcox has listened to people's stories about their lives Often parts of their stories involve sorrows of one kind or another

Some people become overwhelmed by their sorrows while others have learned how to integrate them into their lives in a positive way This book is an invitation to discover how we can learn to integrate our sorrows into our own lives so that we can grow psychologically and spiritually It suggests nine ways that we can reflect on our sorrows to deepen our spiritual lives so that as Rilke wrote to his friend we don't waste them *Death, Dying, and Bereavement in a Changing World* Alan Kemp, 2018-11-02 In this introductory text on thanatology Alan Kemp continues to take on the central question of mortality the centrality of death coupled with the denial of death in the human experience Drawing from the work of Ernest Becker *Death Dying and Bereavement in a Changing World* provides a multidisciplinary and multidimensional approach to the study of death putting extra emphasis on the how death takes place in a rapidly changing world This new second edition includes the most up to date research data and figures related to death and dying New research on the alternative death movement natural disaster related deaths and cannabis as a form of treatment for life threatening illnesses and updated research on physician assisted suicide as well as on grief as it relates to the DSM 5 have been added Student Scholarships of Learning Mohammad H.
