Veiled Intent Natasha Duquette, 2016-07-26 How were eighteenth century dissenting women writers able to ensure their unique biblical interpretation was preserved for posterity And how did their careful yet shrewd tactics spur early nineteenth century women writers into vigorous theological debate Why did the biblical engagement of such women prompt their commitment to causes such as the antislavery movement *Veiled Intent* traces the pattern of tactical moves and counter moves deployed by Anna Barbauld Phillis Wheatley Helen Maria Williams Joanna Baillie and Mary Anne Schimmelpenninck These female poets and philosophers veiled provocative hermeneutical claims and calls for social action within aesthetic forms of discourse viewed as more acceptably feminine forms of expression In between the lines of their published hymns sonnets devotional texts for children and works of aesthetic theory the perceptive reader finds striking theological insights shared from a particularly female perspective These women were not only courageously interjecting their individual viewpoints into a predominantly male domain of formal study biblical hermeneutics but also intentionally supporting each other in doing so Their publications reveal they were drawn to biblical imagery of embodiment and birth to stories of the apparently weak vanquishing the tyrannical on behalf of the oppressed and to the metaphor of Christ as strengthening rock

Poetry and Bondage Andrea Brady, 2021-10-21 Offering a new theory of poetic constraint this book analyses contributions of bound people to the history of the lyric

Futures of Enlightenment Poetry Dustin D. Stewart, 2020-10-30 This book offers a revisionist account of poetry and embodiment from Milton to Romanticism Scholars

have made much of the period's theories of matter with some studies equating the eighteenth century's modernity with its materialism. Yet the Enlightenment in Britain also brought bold new arguments for the immateriality of spirit and evocative claims about an imminent spirit realm. Protestant religious writing was of two minds about futurity, swinging back and forth between patience for the resurrected body and desire for the released soul. This ancient pattern carried over the book argues into understandings of poetry as a modern devotional practice. A range of authors agreed that poems can provide a foretaste of the afterlife but they disagreed about what kind of future state the imagination should seek. The mortalist impulse exemplified by John Milton and by Romantic poets Anna Letitia Barbauld and William Wordsworth is to overcome the temptation of disembodiment and to restore spirit to its rightful home in matter. The spiritualist impulse driving eighteenth century verse by Mark Akenside, Elizabeth Singer Rowe and Edward Young is to break out of bodily repetition and enjoy the detached soul's freedom in advance. Although the study isolates these two tendencies, each needed the other as a source in the Enlightenment and their productive opposition didn't end with Romanticism. The final chapter identifies an alternative Romantic vision that keeps open the possibility of a disembodied poetics and the introduction considers present day Anglophone writers who put it into practice.
