The Neurotic Turn Charles Johns,2017-12-19 Taking their cue from the work of Charles Johns who has argued that far from being an ailment neurosis is in fact the dominant condition of our society today an array of thinkers have gathered in *The Neurotic Turn* to address the question what can neurosis tell us about our current social impasse What emerges in *The Neurotic Turn* is the awareness that the medicalization of neurosis was merely provisional Today to understand our increasingly synthetic digitized world we cannot retreat from neurosis or pretend to offer its cure Instead we must confront it dispensing with the conventional idea of reality in order to redefine it

Theory-Fiction and Other Genres Simon O'Sullivan, 2024-11-27 This book looks at three different kinds of writing practice theory fiction autofiction autotheory and art writing that are increasingly prevalent as genres or hybrid genres in the arts and critical humanities The chapters in the book operate as a critical survey of these new forms of writing many examples are listed whilst at the same time they each work towards some provisional definitions Some key precursors to these new genres are also identified The book explores what these new kinds of writing do What is particular to them or what do they add to those already existing styles and genres and especially the academic essay and article Key here is that each form of writing works in a performative manner or as a device that enables a shift in perspective A case is made for their urgency in relation to contemporary issues and concerns and for their importance in terms of being both from and for more marginalised communities The book concludes with a discussion of machine writing and especially our collaboration with artificial intelligence language models

H.P. Lovecraft Fabián Ludueña Romandini, 2025-05-28 El concepto de Horror nunca adecuadamente clarificado es uno de los hilos conductores de este recorrido que abarca temáticas que van desde una teoría del poder pasando por una disruptiva interpretación de los sueños y el sentido de lo real así como propone una indaga cuanto rigurosa analítica del sujeto No se han descuidado durante la pesquisa algunas de las influencias determinantes en estos mbitos como las relaciones de Lovecraft con la propia tradición filosófica así como con la ciencia pero también con el ocultismo o la teosofía La pregunta precisamente acerca de qué es la filosofía y cuál es su porvenir permea todo el recorrido De hecho se contrasta la teoría lovecraftiana del Horror con la teología política y se habilita una discusión con las interpretaciones neorreaccionarias de su obra particularmente la de Nick Land En otros términos se busca dar cuenta de Lovecraft como un escritor que ha hecho de su obra una especulación que da acceso a la pregunta por la supervivencia y el destino del cosmos y lleva a la filosofía a medirse una vez más con el Mal la Muerte y el Suicidio cosmológico En este punto la ontología analítica alcanza un vértice que la lleva a hacerse cargo de la problemática de la obsolescencia de la pregunta por

el Ser y el triunfo del Nihil como inflexible orden metafísico político que conmueve las bases de lo que entendemos acerca de
