

## Physical Beauty vs Inner Beauty

Physical Beauty vs. Inner Beauty Beauty is an aspect a characteristic that a person has which can be defined as anything that appeals the other person. Let it be your personality, your looks or even your habits, beauty can have various forms. Similarly, we have physical beauty, which can be a person's elegance, features, figure, or complexion, and inner beauty can be your personality traits, your habits or even your sense of humor. The definition of beauty keeps on changing based on what every individual perceives.

Scientific research showed that physical beauty was usually defined when a person had the face structure that was close to being symmetrical; he/she was often referred to as being beautiful. Inner beauty is a concept that is related to the intellect or other factors that pleases other people. Usually, people who have pure intentions towards others and can serve to be role models are said to have inner beauty. The difference between both types of beauty is evident but when it comes to applying it practically, inner beauty leads the way.

Even if you look at the way we run now a days if you find someone physically appealing and you personally know him or her and the personality that they have, you are the best judge of their character. One may be beautiful from the outside, but beauty lies within the person not outside. Even if the person is an epitome of beauty, an appalling personality will erase any type of loveliness they have on his or her face. The same is the case with those who are beautiful on the inside, they may not be beautiful on the outside, but their personality is such that they are still appealing to those who know them.

They may be the personification of physical beauty but what lies inside is what matters the most at the end of the day. Vanity, greed, jealous or the other sins may come to any person in any form but knowing who you are is the important factor in life. Therefore, inner beauty wins this argument when it comes to being practical, it is the person that you are which matters to people not the way you look. Even though looks do count to an extent, if you have the traits of a lovable person, no looks can match up to it. It is the purity within that out shines on the face and if their insides are not tainted, it is bound to show to the people, despite the looks that you may have. Beauty may be in the eyes of the beholder, but it is equally true that every culture has standards for physical attractiveness- standards that can have tremendous influence in many areas of our lives. Although we know that it is who we are on the inside that really counts, we cannot dismiss the role outward characteristics- particularly facial features- play in forming personal relationships, being accepted into social groups and opening doors to careers and other opportunities.

Today, we are divided into races and cultures and are spread all around the world. Our features and intellect may be the same, but there is always a factor in everyone that makes them distinctive from others. When both these types of beauties play important parts, one can never decide which is more important. Everyone takes these matters in different ways but the fact remains the same, inner beauty contributes the most in the practical life. Outer
