**Methodist Episcopal Church** , 1922     **Sources for Latin America in the Modern World** Nicola Foote, 2019 Latin America in the Modern World is the first text to situate the history of Latin American into a wider global narrative and it does so without de-emphasizing the distinctive experiences of each of the Latin American countries Focusing on five themes state formation the construction of national identity through popular culture and religion economics and commodities race class and gender and the environment and written by leading scholars Latin America in the Modern World provides students today with an entry point into understanding this vital region The authors emphasize the distinctive experiences of each of the Latin American countries Instead of suggesting that all Latin American nations have an interchangeable heritage the authors seek to clearly identify themes topics people and intellectual currents that help to knit the history of modern Latin America into a coherent category of study The book would not serve students well if it focused primarily on the history of the three largest countries Mexico Brazil and Argentina to the neglect of others like the Central American and Andean nations As a consequence case studies from almost all of the countries are included at some point in the narrative when their history seems to illuminate a theme or idea particularly effectively In this fashion students will come to appreciate the great diversity

of history and culture within the Latin American region while simultaneously understanding how it fits into the streams and currents of world history and events more broadly

*Warlike and Peaceful Societies* Agner Fog, 2017-10-13 Are humans violent or peaceful by nature We are both In this ambitious and wide ranging book Agner Fog presents a ground breaking new argument that explains the existence of differently organised societies using evolutionary theory It combines natural sciences and social sciences in a way that is rarely seen According to a concept called regality theory people show a preference for authoritarianism and strong leadership in times of war or collective danger but desire egalitarian political systems in times of peace and safety These individual impulses shape the way societies develop and organise themselves and in this book Agner argues that there is an evolutionary mechanism behind this flexible psychology Incorporating a wide range of ideas including evolutionary theory game theory and ecological theory Agner analyses the conditions that make us either strident or docile He tests this theory on data from contemporary and ancient societies and provides a detailed explanation of the applications of regality theory to issues of war and peace the rise and fall of empires the mass media economic instability ecological crisis and much more

*Warlike and Peaceful Societies The Interaction of Genes and Culture* draws on many different fields of both the social sciences and the natural sciences It will be of interest to academics and students in these fields including anthropology political science history conflict and peace research social psychology and more as well as the natural sciences including human biology human evolution and ecology

*The Ladies' Home Journal*, 1894 *Christians at Home* Blake Leyerle, 2024-06-19 What did it mean for ordinary believers to live a Christian life in late antiquity In *Christians at Home* Blake Leyerle explores this question through the writings teachings and reception of John Chrysostom a priest of Antioch who went on to become the bishop of Constantinople in AD 397 Through elaborate spatial and ritual recommendations Chrysostom advised listeners to turn their houses into churches Influenced by New Testament descriptions of the Pauline communities he preached that prayer and chant scriptural discussion and hospitality and even domestic furnishings would have a transformational effect on a home's inhabitants But as Leyerle shows Chrysostom's lay listeners had different views They were focused not on personal ethical change or on the afterlife but on the immediate tangible needs of their households They were committed to Christianity and defended the legitimacy of their views even citing precedents from scripture in support of their practices By reading these perspectives on early Christian life through one another Leyerle clarifies the points of disagreement between Chrysostom and his lay listeners and at the same time highlights their shared understanding For both the preacher and his congregations the household formed a vital ritual arena and lived religion was necessarily rooted in practice Elegantly written and convincingly argued this study will appeal to scholars of theology classics and the history of Christianity in particular
