Cisco Emergency Responder Serviceability Configuration Overview

Note

The following information addresses SNMP Management. For information about SNMP setting for phone tracking, refer to [Set Up SNMP Connections](#).

Emergency Responder supports SNMP V1/V2C and V3. You can use the Serviceability web interface to configure SNMP V1/V2C (Community String and Notification Destination) and SNMP V3 (User and Notification Destination).

Each SNMP version has security models and security levels. Users are assigned to groups that are defined by a security model and specified security levels. Each group also has a defined security access level to a set of MIB objects for reading and writing, which are known as views. The switch has a default view (all MIB objects) and defaults groups defined for SNMP V1 and V2C security models. SNMP V3 provides additional security features that cover message integrity, authentication, and encryption. In addition, SNMP V3 controls user access to specific areas of the MIB tree.

The following sections describe how to configure SNMP V1/V2C and V3.

Serviceability Tools

The following sections describe the Emergency Responder Serviceability tools.

Warfare, and Weapons of Mass Destruction Anthony H. Cordesman, 2001-11-30 There is a wide spectrum of potential threats to the U S homeland that do not involve overt attacks by states using long range missiles or conventional military forces Such threats include covert attacks by state actors state use of proxies independent terrorist and extremist attacks by foreign groups or individuals and independent terrorist and extremist attacks by residents of the United States These threats are currently limited in scope and frequency but are emerging as potentially significant issues for future U S security In this comprehensive work Cordesman argues that new threats require new thinking and offers a range of recommendations from expanding the understanding of what constitutes a threat and bolstering Homeland defense measures to bettering resource

allocation and improving intelligence gathering and analysis No pattern of actual attacks on U S territory has yet emerged that provides a clear basis for predicting how serious any given form of attack might be in the future what means of attack might be used or how lethal new forms of attack might be As a result there is a major ongoing debate over the seriousness of the threat and how the U S government should react This work is an invaluable contribution to that debate **Emergency Response Handbook for Chemical and Biological Agents and Weapons** John R. Cashman,2008-03-31 Updated to reflect the numerous advances that have evolved since the September 11 terrorist attacks Emergency Response Handbook for Chemical and Biological Agents and Weapons Second Edition maintains its reputation as a comprehensive training manual for emergency responders to incidents involving nuclear biological and chemical materials **Cross-Training for First Responders** Gregory Bennett,2010-06-21 The tragedy that occurred in the United States on September 11 2001 brought enhanced emergency preparedness among first responders to the forefront of public awareness Since those events and despite significant progress made in many of the areas previously deemed deficient some response areas are still woefully inadequate Cross Training for
