

NURSING RESTORATIVE PROGRAMS

The Patient-Driven Payment Model (PDPM) is the Medicare payment rule for skilled nursing facilities.

Restorative programs are interventions that enable nursing home residents to reach their highest level of functional abilities to encourage independence and to prevent functional decline.

Restorative programs can be started on admission and at any time when a resident needs assistance with something and has a goal or the potential to maintain or improve function.

Both nurses and therapists are able to set up restorative programs when appropriate. However, it is the nurses that are responsible for monitoring and documentation of progress toward goals. Evaluation or resident participation and progress should be documented by nurses at least weekly.

To be successful and to qualify as a restorative program for MDS purposes, a program must include:

- Determine which restorative program would be appropriate for the individual resident
- Update careplan and orders for completion by aides and assessment by nurses
- Measurable and objective goals
- Evidence of periodic evaluation by licensed nurse
- Supervision by a licensed nurse to ensure completion of at least 15 minutes a day
- Daily charting of completed time by nurses and aides
-

Restorative plans as indicated on the MDS include the following:

- **Ambulation/Walking**

- **Amputation and Prosthesis Care**

Critical Restorative Justice Ivo Aertsen, Brunilda Pali, 2017-11-16 Theories and practices of justice do not meet the socio political challenges of our times For those theorists attempting to develop an alternative to the criminal justice system restorative justice has provided an alternative horizon The restorative justice approach involves meeting people understanding and recognising their vulnerability through participatory and deliberative forums and practices The aim of this collection is to bridge the distance between restorative justice and the critical theory tradition It on the one hand takes into account the limits of restorative justice as they have been articulated or can be articulated through critical social theory and on the other hand emphasises the ground breaking potential that restorative justice can bring to this tradition as a way to address crimes conflicts and injustices and to pursue justice

Restorative Practice Meets Social Justice Anthony H. Normore, Antonia Issa Lahera, 2017-01-01 Restorative Practice Meets Social Justice Un silencing the Voices of At Promise Student Populations is a collection of pragmatic urban school experiences that focus on restorative approaches situated in the context of social justice By adopting this approach researchers and practitioners can connect and extend long established lines of conceptual and empirical inquiry aimed at improving school practices and thereby gain insights that may otherwise be overlooked or assumed This holds great promise for generating refining and testing theories of restorative practices in educational leadership and will help strengthen already vibrant lines of inquiry on social justice The authors posit that a broader conceptualization of social and restorative justice adds to extant discourse about students who not only experience various types of daily oppression in US schools but also regularly live on the fringes of society Chapters are written by a combination of researchers and practicing school leaders who believe in the power of healing and restoring relationships within school communities as opposed to traditional punitive structures The dynamic approaches discussed throughout the book urge school leaders teachers school community members and those who prepare administrators to look within and build bridges between themselves and the communities in which they serve
