The Design Manager's Handbook John Eynon,CIOB (The Chartered Institute of Building),2013-01-23 Design management as a recognised role in the built environment industry is relatively new initially arising from the need for better co ordination and delivery of design information from design teams to main contractors particularly important as procurement routes involving contractor led design have become much more commonplace The advent of design packages driven by specialist sub contractors has also increased the need for co ordination and management of the design process With the growing complexity of construction projects effective design management is

increasingly central to project success BIM as it gains acceptance across the industry will undoubtedly have a huge impact on project delivery process and the role of the Design Manager The CIOB Design Manager s Handbook covers subjects such as design process and management tools the role of the Design Manager value management and innovation procurement routes and implications people dynamics and factors that will affect the development of the Design Manager s role in the future including BIM It will ensure Design Managers understand the processes tools and skills that are required to be successful in the role and will assist them in delivering real value to complex construction projects Written for both the Design Manager practitioner and students on construction related degree courses anyone interested in construction based design management will also find the book useful *BOOMERVILLE: Getting Off the Corporate Merry-Go-Round* Michael Hib,2013-12-18 As millions of baby boomers head toward retirement and to new ventures the world in which we live and work is shrinking rapidly Many more countries attempt to become an economic player and US competitor as the global economy emerges Rapidly expanding technologies and communications are enabling more countries to become borderless within a global economic community of creative destruction competitors on a global stage and 24 hour global clock There is a convergence of five powerful forces BIG data captured and retrieved by virtualization digital storage mobile computing expanded use of social media cloud computing and SaaS applications as businesses move closer to achieving the possibilities of the new gig economy where all five forces are mature implemented and truly integrated rather than precariously bolted on These five forces offer a new set of tools for business opening the door to a new set of rules for operations performance and competition making just in time freelancing and free agent contracting more attractive These are uncommon times to have five powerful forces all newly emerged all evolving all technology centric already impacting businesses It is an opportunity for IT to deliver extraordinary value via modest investments on top of a strong legacy technology footprint These tectonic changes advance at a time when our worldwide talent pool is shrinking increased migration from rural to larger cities and global cohorts entering their senior years adding to the financial burden for elderly care globally To survive this chaos work is continuously being redefined business models can change on the fly and a new form of business structure leadership management and workforce emerges in the new gig economy Millions of retiring baby boomers getting off the corporate merry go round will play a crucial role as freelancers and free agents in bridging the gaps in skills talent business wisdom and sustainability **Successful Manager's Handbook** Brian Leigh Davis,Lowell W. Hellervik,James L. Sheard,1986
