**Untethered** Ivan Seidenberg, 2018-05-01 The Verizon leadership team stands apart from most leadership teams today in their willingness repeatedly to put the enterprise before the individual At first blush this might look like a hopelessly old fashioned notion in the age of the selfie Yet I would argue this is a trait that future leaders and boards of directors across industries would do well to understand and embrace Seidenberg not once but twice in the service of company shareholders and employees subordinated himself and put off taking sole leadership of the company to advance the enterprise's odds of success And many others in this story exhibited the same trait to help build this industry leading enterprise They understood that the risk of not acting and thereby destroying value during a period of accelerating technological change and industry consolidation a situation faced by leadership teams around the world today was much greater than the risk of stepping in as No 2 or co CEO In my 50 years of experience it is a rare leadership team that will subordinate itself for the benefit of the industry customers and the company That principle that the company comes first the individual second is what will define successful leadership teams of the future Multiple leadership principles some new some timeless emerge from this narrative and will be of great use to the next generation of leaders across industries and around the world By taking a look at a company that successfully executed exponential transformation we can take the strategies of Verizon leaders and apply them to our own experiences Ram Charan **Marketing with Strategic Empathy** Claire Brooks, 2016-08-03 We are living in an age of continual motion and change and as a result traditional strategy planning has become outmoded Every manager perhaps even every employee needs to become a strategist Every strategist in turn needs to develop deep consumer insight or empathy as a basis for flexible strategy formation This book offers a practical guide on how to develop and implement a systematic process of strategic empathy to lead to greater effectiveness and day to day success *Marketing With Strategic Empathy* is written by Claire Brooks the CEO of the global consulting firm where the strategic empathy framework and processes were developed She has applied these in many successful projects for international corporations for more than 10 years

*Terror in Transition* Tricia Bacon, Elizabeth Grimm, 2022-09-13 What is the role of founding leaders in shaping terrorist organizations What follows the loss of this formative leader These questions are especially important to religious terrorist groups in which leaders are particularly revered Tricia L Bacon and Elizabeth Grimm provide a groundbreaking

analysis of how religious terrorist groups manage and adapt to major shifts in leadership They demonstrate that founders create the base from which their successors operate Founders establish and explain the group's mission and they determine and justify how it seeks to achieve its objectives Bacon and Grimm argue that how successors position themselves in terms of the founder shapes a terrorist group's future course They examine how and why different types of successors choose to pursue incremental or discontinuous change Bacon and Grimm emphasize that the instability surrounding succession can place a group at its most vulnerable the precise time to explore options to weaken or defeat it Bacon and Grimm highlight similarities between Islamic terrorist groups abroad and Christian white nationalist groups such as the 1920s Ku Klux Klan in the United States Drawing on extensive field research in Afghanistan Somalia and Pakistan *Terror in Transition* features detailed analysis of groups such as al Shabaab Egyptian Islamic Jihad and al Qaeda in Iraq the Islamic State in Iraq as well as the KKK Offering a rigorous theoretical perspective on terrorist leadership transition this policy relevant book provides actionable recommendations for counterterrorism practitioners

**Succession Planning** Christopher M. Parfitt, 2022-12-13

Succession planning is a concept not well known nor used in education Businesses non profit entities medical organizations and the military have used many of the concepts for decades with varying degrees of success A framework and practical guidelines are provided for anyone with hiring authority or interest in leadership development in educational organizations The identification of future talent the targeted and specific development and mentoring and the retention of the most promising employees comprise the three major components to a quality plan Most importantly the unique organizational culture must be considered across every phase A lack of planning can be costly and detrimental to performance which in an educational setting equates to lower student achievement A quality succession plan can be used to foster engagement from all levels of stakeholders and ensure qualified individuals are prepared to assume positions of greater authority at every level of the organization There is no universal answer no one size fits all approach however with strategic initiatives and the proper support from senior leaders a leadership pipeline can be established in any educational organization not just for the present but for future needs

The Voice of the People? Wim Blockmans, 2024-01-31 Over the last two centuries Europe has developed various forms of political representation from which democratic parliamentary systems gradually emerged This book unravels the conditions scale and impact under which political participation of common burghers and peasants emerged Political participation in Europe before the Revolutions moved away from the traditional focus on Three Estates which has often blurred the interpretation of popular participation's role in societies This book instead examines Europe's key political variants such as high levels of commercialization and urbanization combined with a balance of powers between competing categories of actors in society controlling relatively independent resources which lead to political participation forming across the

continent Instead of starting from any ideal type of political participation this book focuses on the variation through time and space its composition and activity helps to explain the functions particular institutional settings fulfilled The time frame 1100-1800 sheds light on the long term evolutions such as institutional inertia and processes of oligarchizing To reveal a correlation of economic and demographical growth with the claim of rising social classes to voice their interests It also points to the opposite tendency the formation of fiscalmilitary monarchical states This book is essential reading for those interested in the formation of Europe's political structures and students of premodern political history Emotions, Decision-Making and Mass Atrocities Olaoluwa Olusanya, 2016-05-06 This book rehumanizes perpetrators of mass atrocities At present a victim perpetrator dichotomy appears to be the dominant paradigm perpetrators have either been mechanistically dehumanized that is perceived as unemotional hard hearted and conforming and thereby lacking the core features of human nature or alternatively they have been animalistically dehumanized In other words they are seen as immoral unintelligent lacking self control and likened to animals Within sociology and criminology the dominant view is that genocide and other mass atrocities are committed by technologically lobotomized perpetrators Somehow the process of rationalization is believed to have transformed these people from emotionally healthy people into hollow soulless shells of human beings or zombies devoid of a full range of normal emotions These people are considered bereft of any ability to reason think or feel yet ambulant and able to respond to surrounding stimuli However it is difficult to imagine crime especially those involving a group of people working together for the duration of a particular criminal activity without emotions For instance there is ample evidence suggesting that both crimes of passion and premeditated crimes involve emotional arousal Furthermore research in fields such as evolutionary biology psychology and sociology of work and organizations suggest that emotions are essential for human progress and survival In addition emotions help us make the right call in risky and uncertain situations in other words the majority of real life situations There is therefore a need to revisit existing assumptions around the role of emotions in mass atrocities **The Saturday Evening Post**, 1926 *The Index ... A Weekly Paper*, 1870 *Business Management And Organizational Behaviour* Karam Pal, 2011-07-13 Business Management and Organizational Behaviour is divided into two parts The first part contains the fundamentals of business management including management process and the second part deals with organizational behaviour The theories in the book are supported by many examples from different business sectors in the Indian scenario It is written in a simple self instructional style for easy understanding of the students Every chapter begins with an introduction followed by learning objectives of that chapter and is followed by a summary and review questions to help students structure their learning A glossary of key terms has also been appended at the end of the book to enable students to locate the relevant information quickly The book has been written in accordance with the UGC guidelines and provides comprehensive coverage of the subject **BUSINESS HORIZONS**, 1986 *Bulletin of the Atomic Scientists*, 1982-01 The Bulletin of the Atomic Scientists is the premier public resource on scientific and technological

developments that impact global security Founded by Manhattan Project Scientists the Bulletin s iconic Doomsday Clock stimulates solutions for a safer world **Bulletin of the Atomic Scientists** ,1969-02 The Bulletin of the Atomic Scientists is the premier public resource on scientific and technological developments that impact global security Founded by Manhattan Project Scientists the Bulletin s iconic Doomsday Clock stimulates solutions for a safer world
