

# Writing Effective Summary and Response Essays

## The Summary:

A summary is a concise paraphrase of all the main ideas in an essay. It cites the author and the title (usually in the first sentence); it contains the essay's thesis and supporting ideas; it may use direct quotation of forceful or concise statements of the author's ideas; it will NOT usually cite the author's examples or supporting details unless they are central to the main idea. Most summaries present the major points in the order that the author made them and continually refer back to the article being summarized (i.e. "Damon argues that ..." or "Goodman also points out that ..."). The summary should take up no more than one-third the length of the work being summarized.

## The Response:

A response is a critique or evaluation of the author's essay. Unlike the summary, it is composed of YOUR opinions in relation to the article being summarized. It examines ideas that you agree or disagree with and identifies the essay's strengths and weaknesses in reasoning and logic, in quality of supporting examples, and in organization and style. A good response is persuasive; therefore, it should cite facts, examples, and personal experience that either refutes or supports the article you're responding to, depending on your stance.

## Two Typical Organizational Formats for Summary/Response Essays:

1. Present the summary in a block of paragraphs, followed by the response in a block:

Intro/thesis  
Summary (two to three paragraphs)  
Agreement (or disagreement)  
Disagreement (or agreement)  
Conclusion

**Note:** Some essays will incorporate both agreement and disagreement in a response, but this is not mandatory.

2. Introduce the essay with a short paragraph that includes your thesis. Then, each body paragraph summarizes one point and responds to it, and a conclusion wraps the essay up.

Intro/thesis  
Summary point one; agree/disagree  
Summary point two; agree/disagree  
Summary point three; agree/disagree  
Conclusion

## Summary And Response Papers:

**Writing Instruction for Success in College and in the Workplace** Charles A. MacArthur, Zoi A. Philippakos, 2023-12  
This book describes an innovative evidence based method for preparing students for the demands of college writing called Supporting Strategic Writers SSW. The goal of SSW is to help students become independent learners who understand the value of strategies and can apply them flexibly in future courses and the workplace. The text provides genre based strategies for rhetorical analysis, planning, evaluation and revision, critical reading of sources and synthesis of sources that are part of college composition and applicable across contexts and course assignments. Equally important to the SSW approach is that students learn metacognitive strategies for goal setting, task management, progress monitoring and reflection. Instructional methods include discussion of model essays, think aloud modeling of strategies, collaborative writing, peer review and self evaluation and reflective journaling. Book Features: Integrates three critical components: strategies for critical reading and writing, metacognitive strategies to help students take control of their learning and pedagogical strategies. Provides research based approaches for teaching developmental writing courses, first year composition, summer bridge programs and first year seminars. Offers thorough explanations of the strategies and instructional methods with practical examples and support materials for instructors. Based on two years of design research and three experimental studies which found significant positive effects on writing quality and motivation with college students in developmental writing courses. Writing and Reading Connections Zoi A. Philippakos, Steve Graham, 2022-11-18 Writing skills are essential for success in the 21st century school and workplace but most classrooms devote far more time to reading instruction with writing often addressed in isolation or excluded. In this insightful professional development resource and text, leading researchers discuss why and how to integrate writing and reading instruction in grades K-12 and beyond. Contributors explore how to harness writing-reading connections to support learning in such areas as phonics and spelling, vocabulary, understanding genre and text structure and self-regulated strategy development as well as across content areas and disciplines. Special considerations in teaching emergent bilingual students and struggling literacy learners are described. User friendly features include guiding questions, classroom examples and action questions that help teachers translate the research and concepts into practice. Summary of Responses Commenting on the Proposed Patent Law Accompanying the Working Paper on Patent Law Revision Canada. Consumer and Corporate Affairs Canada, 1977 *Handbook of Research on Writing Instruction Practices for Equitable and Effective Teaching* Hodges, Tracey S., 2022-05-27 Writing is a critical component for teaching children about advocacy and empowering student voice as well as an essential tool for learning in many disciplines. Yet writing instruction in schools often focuses on traditional methods such as the composition of five paragraph essays or the adherence to proper grammatical conventions. While these are two components of writing instruction and preparation in education, they

only provide a small glimpse into the depth and breadth of writing. As such, writing instruction is increasingly complex and requires multiple perspectives and levels of skill among teachers. The Handbook of Research on Writing Instruction Practices for Equitable and Effective Teaching serves as a comprehensive reference of issues related to writing instruction and leading research about perspectives, methods, and approaches for equitable and effective writing instruction. It includes practices beyond K-12, including best writing practices at the college level as well as the development of future teachers. Providing unique coverage on culturally relevant writing, socio and racial linguistic justice, and urgent writing pedagogies, this major reference work is an indispensable resource for administrators and educators of both K-12 and higher education, pre-service teachers, teacher educators, libraries, government officials, researchers, and academicians. **Writing Philosophy Papers**

Zachary Seech, Andrew Kania, 2024-08-28. This sixth edition of Writing Philosophy Papers updates and expands one of the most popular guides to philosophical writing assignments for undergraduate students. Written in a clear, straightforward style, the book covers everything from time management to the difference between *i.e.* and *e.g.*. The heart of the book is devoted to how to write a thesis defense paper, with chapters on the structure of a strong paper, the process of writing and revising, matters of style and usage, and scholarly citation. This advice is illustrated with concrete examples throughout, including a complete thesis defense paper written and formatted according to the book's recommendations. The book also covers how to take good notes from various kinds of philosophical sources, how to write other commonly assigned kinds of papers, and how to study for and take a philosophy exam. A chapter on doing philosophical research contains practical advice on how to discover and access the most helpful sources for a philosophical research paper or annotated bibliography. Because virtually every philosophy assignment requires a basic grasp of arguments, the book ends with a chapter introducing some basic concepts and skills for reasoning well. The heart of the sixth edition has been revised and restructured to lead students even more clearly through the process of drafting, revising, and formatting a thesis defense paper. This new edition also includes an updated, completely revised, and expanded chapter on citing sources, giving equal consideration to print and online sources; an updated, completely revised, and expanded chapter on doing philosophical research, focused on how to find the most helpful sources for completing a philosophical research paper or annotated bibliography; updated, revised, and greatly expanded advice on writing style and usage; a completely revised and expanded treatment of good reasoning, with a new discussion of inductive and abductive reasoning; and new advice on how to take good notes and how to study for and take philosophy exams. Corpus Linguistics for English Teachers

Eric Friginal, 2018-05-15. Corpus Linguistics for English Teachers: New Tools, Online Resources, and Classroom Activities describes Corpus Linguistics (CL) and its many relevant, creative, and engaging applications to language teaching and learning for teachers and practitioners in TESOL and ESL/EFL, and graduate students in applied linguistics. English language teachers, both novice and experienced, can benefit from the list of new tools, sample lessons, and resources, as well as the introduction of topics and themes that connect CL constructs to established

theories in language teaching and second language acquisition Key topics discussed include CL and the teaching of English vocabulary grammar and spoken written academic discourse new tools online resources and classroom activities and focus on the English teacher as a corpus based researcher With ready to use teaching vignettes tips and step by step guides case studies with practitioner interviews and discussion of corpora and corpus tools Corpus Linguistics for English Teachers is a thoughtfully designed and skillfully executed resource bridging theory with practice for anyone looking to understand and apply corpus based tools dynamically in the language learning classroom **Exploring Spoken English Learner**
