

THE DUBE TRAIN BY CAN THEMBA

1. Summary

The narrator is at Dube Station in Soweto on a cold Monday morning, waiting for the train to Johannesburg. All his descriptions of the station and people emphasise his depression, which he feels is shared by all the people around him.

When he gets onto the train he sits opposite a huge man. When the train gets to Pheloni Station a young woman enters the carriage and sits next to the narrator. Soon afterwards a tsotsi jumps onto the train and begins verbally harassing the girl. When the girl reaches her stop and wants to get off the train the tsotsi prevents her and slaps her. She tries to get away from him by jumping over the narrator but the tsotsi follows her.

No one dares to say anything to stop the tsotsi, until an older woman starts shouting at the men and calling them cowards. This causes the tsotsi to swear at the woman. This angers the huge man sitting opposite the narrator and he gets up and moves towards the tsotsi. The tsotsi pulls out a knife and cuts the big man's chest and arm. The big man is enraged and, in spite of his injuries, he grabs the tsotsi and lifts him up. He throws him out of the train window.

Everyone is shocked, but the incident soon becomes just another event on the morning Dube train.

2. Title

The title focuses on the train journey rather than on any characters in the story. The writer intends us to see the train journey as a comment on the lives people experience. Even when bad things happen people just accept them. The incident on the train happens to people no one knows or is concerned about. It soon becomes: Just an incident in the morning Dube train.

3. Themes

The main themes of this story are:

- Violence, crime and barbarism in the townships; and

Obesity Prevention Laurette Dube,2010-06-25 Over the years approaches to obesity prevention and treatment have gone from focusing on genetic and other biological factors to exploring a diversity of diets and individual behavior modification interventions anchored primarily in the power of the mind to the recent shift focusing on societal interventions to design temptation proof physical social and economic environments In spite of repeated calls to action including those of the World Health Organization WHO the pandemic continues to progress WHO recently projected that if the current lifestyle trend in

young and adult populations around the world persist by 2012 in countries like the USA health care costs may amount to as much as 17.7% of the GDP. Most importantly in large part due to the problems of obesity those children may be the first generation ever to have a shorter life expectancy than that of their parents. Obesity Prevention presents the most current research and proposals for addressing the pandemic. Past studies have focused primarily on either genetic or behavioral causes for obesity however today's research indicates that a strongly integrated program is the best prospect for success in overcoming obesity. Furthermore focus on the role of society in establishing an affordable accessible and sustainable program for implementing these lifestyle changes is vital particularly for those in economically challenged situations who are ultimately at the highest risk for obesity. Using studies from both neuroscience and behavioral science to present a comprehensive overview of the challenges and possible solutions. The brain to society approach to obesity prevention focuses on what is needed in order to sustain a healthy pleasurable and affordable lifestyle. Explores the brain to society approach to obesity prevention focusing on an integrative approach to addressing the obesity pandemic. Presents both the neuroscientific and the behavioral factors that impact eating habits. Identifies the challenges and suggests solutions for altering attitudes toward food on both an individual and a societal level. **World Outlook**, 1917 [Handbook of Pediatric Neuropsychology](#) Andrew S. Davis, 2010-10-25 By far the most comprehensive and detailed coverage of pediatric neuropsychology available in a single book today Davis provides coverage of basic principles of pediatric neuropsychology but overall the work highlights applications to daily practice and special problems encountered by the pediatric neuropsychologist. Cecil R Reynolds PhD Texas A M University The breadth and depth of this body of work is impressive. Chapters written by some of the best researchers and authors in the field of pediatric neuropsychology address every possible perspective on brain behavior relationships culminating in an encyclopedic text. This book reflects how far and wide pediatric neuropsychology has come in the past 20 years and the promise of how far it will go in the next. Elaine Fletcher Janzen EdD NCSP ABPdN The Chicago School of Professional Psychology it would be hard to imagine a clinical situation in pediatric neuropsychology in which this book would fail as a valuable resource. Archives of Clinical Neuropsychology I believe there is much to recommend this hefty volume. It is a solid reference that I can see appreciating as a resource as I update my training bibliography. Journal of the International Neuropsychological Society This landmark reference covers all aspects of pediatric neuropsychology from a research based perspective while presenting an applied focus with practical suggestions and guidelines for clinical practice. Useful both as a training manual for graduate students and as a comprehensive reference for experienced practitioners it is an essential resource for those dealing with a pediatric population. This handbook provides an extensive overview of the most common medical conditions that neuropsychologists encounter while dealing with pediatric populations. It also discusses school based issues such as special education law consulting with school staff and reintegrating children back into mainstream schools. It contains over 100 well respected authors who are leading researchers in their respective fields.

Additionally each of the 95 chapters includes an up to date review of available research resulting in the most comprehensive text on pediatric neuropsychology available in a single volume Key Features Provides thorough information on understanding functional neuroanatomy and development and on using functional neuroimaging Highlights clinical practice issues such as legal and ethical decision making dealing with child abuse and neglect and working with school staff Describes a variety of professional issues that neuropsychologists must confront during their daily practice such as ethics multiculturalism child abuse forensics and psychopharmacology *Let's Go New York City 17th Edition* Let's Go Inc.,2008-11-25 Subtitle on cover of 19th ed The student travel guide First President Heather Hughes,2011 A full biography of the founding president of the African National Council ANC this account uncovers the inspirations for John L Dube s many public achievements Tracing the history of his forbearers in the Zulu kingdom this volume chronicles the politician s life from his birth in 1871 and highlights his many achievements including the founding of the Ohlange School the key role he played in the Bhambatha Rebellion and the authorship of the first Zulu novel As it evaluates Dube s five year presidency of the ANC this book shows that in spite of the many conflicts and ambiguities in his position Dube s central political belief that Africans should be directly represented in the parliament of the land remained remarkably constant throughout his long career *SADC Gender Protocol 2014 Barometer* Morna, Colleen Lowe,Dube, Sifiso,2014-10-25 In August 2008 Heads of State of the Southern African Development Community adopted the ground breaking SADC Protocol on Gender and Development This followed a concerted campaign by NGOs under the umbrella of the Southern Africa Gender Protocol Alliance By the 2013 Heads of State summit 13 countries had signed and 12 countries had ratified the SADC Gender Protocol The Protocol is now in force With one year to go time is ticking to 2015 when governments need to have achieved 28 targets for the attainment of gender equality In keeping with the Alliance slogan Yes we must this 2014 Barometer provides a wealth of updated data against which progress will be measure by all those who cherish democracy in the region The world and SADC is also looking to the future with the post 2015 agenda Now is the time to strengthen resolve reconsider reposition and re strategise for 2030 **Come Ride With Me** Lorraine Dube,2011-02-17 When Lorraine Dube went for her annual mammogram on September 4 1997 she asked the technician for compression films of her upper chest area right front shoulder and underarm areas She explained that for almost a year she had felt a pulling sensation in these areas Although her doctor had assured her many times that it was nothing probably just an after effect of the radiation treatment she had after her lumpectomy seven and a half years earlier she still had a nagging concern about that odd tight feeling in her chest When the technician took the films it was five times more painful than when she did the routine compression shots of the breast Tears were running down Lorraine s face but she not dare move Four days later her doctor called Lorraine this is Dr V How long have you had that mass in your chest You have to see a surgeon immediately Lorraine asked herself why Dr V had ignored her concerns all those times She reprimanded herself for not seeking a second opinion when she first experienced that pulling

sensation and did not feel comfortable with his lack of response to her concern So many things went through her mind yet memories of her own lumpectomy were just the tip of the iceberg She relived the horror of more than thirty years earlier when as a mother of three small children at age 22 she heard those terrible words from Dr DeVillers about her 26 year old husband s cancer condition four to six weeks the doctor had said All of this flashed through her mind at speed warp ten literally in just a few seconds Her life path had taken her through quite a few coaster rides throughout her 57 years but all those were kiddie rides compared to this one And so the mother of all roller coaster rides of life began with that fateful phone call from Dr V Lorraine Dube beat the odds She beat that aggressive Stage 3 sarcoma lodged in her chest wall But the battle was not without many many scars In the process she lost five ribs all her lymph nodes in the right arm area a piece of her clavicle most of the use of her right arm and hand and nearly her life After seven surgeries chemotherapy treatments experimental brachytherapy and countless battles with infection including a flesh eating bacteria inside her chest wall Lorraine Dube was cancer free but left suffering from chronic debilitating pain a souvenir from her ordeal that she would carry for the rest of her life Lorraine was a survivor always had been But this time it was different Why had God spared her from the terrible cancer and its aftermath of surgery infections and lost body parts only to leave her suffering from such unimaginable pain The cancer was gone but at what cost What the heck was she supposed to do with the rest of her life On her way to figuring it out her daughter suggested that she write a book about her life Don t worry about writing a best seller Mom Just write it from the heart Write it for your grandsons Five years later Ms Dube began writing this book the story of her life She tells the story of her life from the earliest recollections of childhood through the sometimes rough years of adulthood all with a few purposes in mind She wants to tell her grandsons about her history their history and to relate all her adult experiences some good some bad some easy some tough all with the purpose of showing them that they too are survivors like their Memere Her message Life may indeed be a roller coaster but nothing is impossible Somewhere along the line writing this book became Lorraine s therapy She began to make peace with and sense of the chronic pain that gripped her and kept her from leading the life she wanted the life she expected After all her golden years were supposed to be her happiest This b Handbook of Applied Behavior Analysis, Second Edition Wayne W. Visual Information Processing Kimiyo Murata-Soraci, 2003-03-30 Visual information processing in humans with intellectual disabilities and in animals is presented for conceptual and methodological reasons Much of the evolutionary path of higher primate species has involved the development of sophisticated visual systems that interact with complex higher order cognitive processes Key questions in cognitive science address the manner in which the environment is represented by the organism and thus relate to how knowledge about the world is gleaned with implications for theories of action and decision making Finally it has become apparent that the distinction between perceptual and cognitive processes is not always a clear one and that these processes interact in critical ways in underlying complex behavioral repertoires Consistent with the emphasis in this series on individual differences both typical and atypical development are explored here Philosophical approaches to visualism are also presented Chapters have import both for basic science and for the development of applications
