Daniel d'Oney,2020-04-01 A Kingdom of Water is a study of how the United Houma Nation in Louisiana successfully navigated a changing series of political and social landscapes under French Spanish British and American imperial control between 1699 and 2005 After 1699 the Houma assimilated the French into their preexisting social and economic networks and played a vital role in the early history of Louisiana After 1763 and Gallic retreat both the British and Spanish laid claim to tribal homelands and the Houma cleverly played one empire against the other In the early 1700s the Houma began a series of adaptive relocations and just before the Louisiana Purchase in 1803 the nation began their last migration a journey down Bayou Lafourche In the early 1800s as settlers pushed the nation farther down bayous and into the marshes of southeastern Louisiana the Houma quickly adapted to their new physical environment After the Civil War and consequent restructuring of class systems the Houma found themselves caught in a three tiered system of segregation Realizing that education was one way to retain lands constantly under assault from trappers and oil companies the Houma began their first attempt to integrate Terrebonne Parish schools in the early twentieth century though their situation was not resolved until five decades later In the early twenty first century the tribe is still fighting for federal recognition **Catalog of Federal Domestic Assistance** ,1971 Identifies and describes specific government assistance opportunities such as loans grants counseling and procurement contracts available under many agencies and programs *Contemporary Cat* Anthony Magro,Rutgers University.
