Summer 2015 Ams Investigations Manual:

Climate Studies Investigations Manual Academic Year 2015 - 2016 and Summer 2016 Ams Education, 2015-07-01

North Pacific Environment and Paleoclimate from the Late Pleistocene to Present Miriam Jones, Lesleigh

Anderson, Dorothy M. Peteet, 2020-01-13 The vast area of the North Pacific spanning 55 longitude represents a challenge for documenting and understanding the geologic history of ocean atmosphere and terrestrial environmental change. Nevertheless its importance for many issues including our fundamental understanding of ocean and atmospheric circulation patterns and teleconnections with natural modes of climate variability through time has led to a steady rise in the numbers of study sites and proxy types. By bringing together a wide range of proxies and timescales that examine the impacts of paleoclimate on ecosystems water carbon and humans and interactions between marine and terrestrial processes this Research Topic contributes to an improved understanding of the region's significance at global hemispheric and regional scales.

Books in Print, 1979 **Books in Series**, 1985 Vols for 1980 issued in three parts Series Authors and Titles
